

WALL STREET BEARS RULE STOCK PRICE MOVEMENTS, TRADE LIGHT

Reactionary Commodity Values and Weakening of the Market's Technical Position by Last Week's Upturn Among Factors.

ATTACK IS MADE ON AMUSEMENT SHARES

Closing Prices Are Irregular With Losses a Little in the Majority but Most Pivotal Issues Close Fairly Steady.

NEW YORK, Aug. 18.—Bears had things pretty much to themselves at the beginning of the new week in the stock market, but found the market rather thoroughly stripped of profits to be made on the short side.

Concerted attacks against the amusement shares resulted in some rather sharp breaks, but when shorts attempted to buy back the shares they found few nearby offerings, and were unable to get shares at bargain levels.

Closing quotations were irregular, with losses a little in the majority, but most pivotal stocks closed fairly steady. The day's totals were only about 1,400,000 shares. During the morning, the bid-off of rather early, and temporary losses of 2 to 5 points were common.

Bears were aided by rather discouraging developments, outside of the stock market. Commodities were generally heavy, cotton breaking to the lowest levels in 15 years. The technical position was shifted 1-1/2 last week's move.

Amusement Shares Attacked. Stocks appear to be thoroughly sold out, however, and many traders now feel that without the aid of some unexpected and unsettling business developments, near profits will be slim.

Attacks against the amusement shares met with considerable success for a time, probably permitting considerable short covering elsewhere in the list.

LIQUOR LAW VIOLATORS CROWD LEAVENWORTH PRISON

Authorities Forced to Move 1600 Drug Addicts to Other Quarters to Make Room for Newcomers.

By a Staff Correspondent of the Post-Dispatch. LEAVENWORTH, Kan., Aug. 18.—More than 1600 Federal prisoners, all narcotic addicts, have been transferred from the United States Penitentiary here to the old military prison at Fort Leavenworth, which was evacuated last year as a military prison to make room for the steadily growing influx of men convicted of violation of the prohibition laws.

Yester day's high 58 (3 p. m.), low 73 (a. m.).

Official forecast for St. Louis and vicinity. Most cloudy tonight and a. m. tomorrow, but only slight rain; not much change in temperature.

Missouri: Partly cloudy; probably showers tonight and west portion tomorrow; not much change in temperature.

Illinois: Mostly fair tonight; slightly cooler in northern portion; tomorrow increasing cloudiness.

POST-OFFICE WEATHERBIRD

CRANKCASE OR BANKROLL?

Pasports.

(Copyright, 1939, by Press and Pulitzer Publications, Inc., New York City.)

GENEVA, Aug. 18. — Italian frontier guards recently invaded Swiss territory near Zermatt, and forced 22 Italian refugees who had crossed the dangerous Theodule glacier in an attempt to leave Italy without passports to return. The Swiss press is violently agitated by this incident, coming on the heels of complaints by St. Bernard Monks that Fascist guards fired across the frontier at parties searching for refugees lost in the Alps. The conservative Gazette de Lausanne calls on the Government to take action to prevent violations of Swiss territory in future.

With winter approaching, after which difficult passes on the Italy-Swiss border will be uncrossable, the number of Italians leaving Italy clandestinely is becoming greater despite the bad weather in high regions.

THREE MEN HELD FOR PLOT TO KILL FLORIDA GOVERNOR

Doyle E. Carlton Intended Victim of Tallahassee Editor and Two Others, Warrants Charge.

POLITICAL MOVE, DEFENDANTS SAY

Publisher Has Carried on Campaign Against Executive in Connection With Fight on Race Track.

By the Associated Press. JACKSONVILLE, Fla., Aug. 18.—Fred O. Eberhardt, publisher of the Florida State News of Tallahassee; Frank Ralls, a former political worker, and Henry Halsema, a real estate operator of Jacksonville, were formally charged with a conspiracy to procure the assassination of Gov. Doyle E. Carlton, in warrants issued here today.

The warrants were sworn out by C. E. Hooks, a Deputy Sheriff, J. C. Madison, a Justice of the Peace, set bond at \$500 each which was made immediately by attorneys for the accused men.

The Justice of the Peace explained that under Florida law, the charge is a misdemeanor. He said the maximum punishment on conviction would be imprisonment for one year.

Eberhardt, interviewed in his cell just before he made bond, said that his arrest was part of "a political plot," and branded the charges of conspiracy against the life of the Governor as "just a cheap bid for publicity."

"Part of a Political Plot." "I am not in the least worried about the charge," the publisher said. "Because of the activity of my newspaper, I have been harassed for the past year. Lawsuits have been filed against me repeatedly in an effort to embarrass me. This is just part of the political plot."

"I was not told of the charge by officers that arrested me. I did not know what I was arrested for until yesterday when someone other than an officer told me. Nobody has seen me."

Eberhardt said he knew nothing of any plot to kill the Governor. "The first I knew of it was when I was told of it here," he said. "The thing is absurd."

Ralls said today that he had no statement, advising that newspaper men see his lawyers.

"I think this thing is aimed at Eberhardt," he declared.

Halsema made no statement.

Eberhardt said he was at his hotel Saturday night when three deputies arrived from the Sheriff's office. He said they told him the Sheriff wished to see him, but did not tell him he was under arrest.

Eberhardt said he had had dinner with Vincent Giblin, an attorney for "Scarface" Al Capone, and Ralls.

"They were waiting for me on the hotel porch. When the officers arrested me I went back to them and told them to wait. The deputies asked me who the men were. I told them and they went back and got them."

Giblin, it was disclosed, was released by the officers without going to jail.

The bonds were made returnable next Monday.

What Warrants Say.

"This has not come as a complete surprise to me. I have known of Eberhardt, Frank Ralls and Henry Halsema did then and there with each other and divers other persons, whose names are to the present unknown, agree, conspire and confederate to commit an offense against the laws of the State of Florida, to wit: Murder in the first degree by them and there agreeing with each other to hire a man for a consideration of money and other things of value to unlawfully shoot and kill one Doyle E. Carlton, the Governor of the State of Florida."

They were signed by Justice of the Peace Madison.

Gov. Carlton in Pensacola said: "This has not come as a complete surprise to me. I have known of Eberhardt, Frank Ralls and Henry Halsema did then and there with each other and divers other persons, whose names are to the present unknown, agree, conspire and confederate to commit an offense against the laws of the State of Florida, to wit: Murder in the first degree by them and there agreeing with each other to hire a man for a consideration of money and other things of value to unlawfully shoot and kill one Doyle E. Carlton, the Governor of the State of Florida."

Man Shot in Hospital.

By the Associated Press. OKLAHOMA CITY, Ok., Aug. 18.—Ed Martin, 62 years old, is near death today from gunshot wounds inflicted by A. M. Harris, 48, while Martin was visiting Harris' estranged wife in a hospital here. Thirty-three patients witnessed the shooting at Mr. Harris' bedside after she had refused yesterday to see her husband. Harris told police Martin had been "instrumental in breaking up his home." He fired five shots.

Third Generation of Theater Family

ETHEL BARRYMORE COLT (left) WITH HER MOTHER, ETHEL BARRYMORE.

AT their home in Mamaroneck, N. Y. The daughter, 18 years old, will make her stage debut in her mother's company in "Scarlet Sister Mary," in Cleveland, Aug. 29. Miss Colt is the granddaughter of Maurice and George Drew Barrymore and a grandniece of the late John Drew.

WOMEN'S AIR DERBY FLYERS

IN SECOND DAY OF CONTEST

California First of Six Into San Diego; Today's Goal Is Phoenix, Ariz.

By the Associated Press. SAN DIEGO, Cal., Aug. 18.—With Gladys O'Donnell of Long Beach, Cal., in the lead, six contestants in the Long Beach-Chicago women's air derby left here shortly after 10 a. m. today on a 300-mile flight to Phoenix, Ariz., stopping on the way at Calexico, Cal.

Mrs. O'Donnell was the first to reach Calexico, her time being 41.02 minutes.

The official standing of the contestants in elapsed time before the start today was: Gladys O'Donnell, Long Beach, 33.51; Marjorie Dolg, Danbury, Conn., 35.03; Ruth Barron, Hollywood, Cal., 47.07; Mildred Morgan, Beverly Hills, Cal., 61.29; Ruth Stewart, St. Louis, 53.09; and Jean La Rene, Kansas City, 55.15.

Approximately 20,000 persons packed Long Beach Municipal Airport grounds to watch the flyers leave. The report of a pistol fired in Chicago and transmitted by telephone started the contestants on their 2365-mile flight.

Prices offered in the race total \$25,000, including lap prizes. The contestants are flying planes powered with motor of less than \$50 cubic inches displacement and all the flyers have had more than 150 hours of flying time.

CONNALLY SAYS EUROPEANS

RESENT U. S. HIGH TARIFF

Senator Declares Nations Take Attitude That Act Injures Export Trade.

By the Associated Press. WASHINGTON, Aug. 18.—Senator Connally (Dem.) of Texas, said upon his return from a trip abroad yesterday that there was a "distinct feeling in Europe that enactment of the tariff bill will seriously injure the export trade of the United States."

"The view of most Europeans," he added, "is that they cannot buy from us unless they can also sell to us."

The Texan, who attended the London meeting of the Interparliamentary Union, said he had found "among people from various countries a feeling of deep regret and disappointment at the increased tariff rates carried in the Smoot bill."

"Of course," he said, "they did not express themselves with any bitterness," he said, "but there seemed to be a distinct feeling that their own interests would require retaliatory measures—retaliatory in effect if not name."

32 MILL WORKERS DROWN WHEN WAVE UPSETS FERRY

22 Others Rescued on the Hugi River, Western Arm of Ganges.

By the Associated Press. CALCUTTA, India, Aug. 18.—Thirty-two jute mill workers were drowned and 22 others rescued when a ferryboat on the Hugi River, western arm of the Ganges, was caught in a strong tidal wave and capsized.

HOOPER BACK FROM CAMP

Discussed Drought Relief and Aviation Problems.

WASHINGTON, Aug. 18.—President Hoover returned today to the White House after an uneventful motor trip from his summer camp in Virginia.

The drought problem, which engaged his attention almost exclusively last week, followed the President on the outing in conferences with Secretary of Agriculture Hyde and Chairman Legge of the Farm Board. The State organizations for relief of their stricken farm populations are expected by the President to be functioning in a short time and he wants the Federal agencies ready to give them immediate cooperation.

The conferences on the aviation situation developed that President Hoover is anxious to have the industry stimulated. He is particularly interested in air mail expansion and closer cooperation between the Government and aviation concerns.

Secretary of War a Father.

By the Associated Press. WASHINGTON, Aug. 18.—Mrs. Patrick J. Hurley, wife of the Secretary of War, today became the mother of a daughter. The Hurleys have two other daughters and a son.

HYDE NAMES MISSOURI COUNTIES NEEDING AID

Ex-Governor of Virginia Suggests Wheat Held by Grain Board Go to Livestock.

By the Associated Press. BARYMORE, Md., Aug. 18.—Harry F. Byrd, former Governor of Virginia and chairman of that State's Drought Relief Committee, recommended to Secretary of Agriculture Hyde today that the estimated 75,000,000 bushels of wheat held by the Grain Stabilization Corporation be made available for livestock feed to stricken farmers.

While this proposal was put forward and the Virginia committee conferred with Farm Board officials John Barton Payne, chairman of the American Red Cross, informed President Hoover that only a few inquiries had been received dealing with needy cases.

He said it probably would be necessary to expend \$5,000,000 for relief later.

President Hoover has indicated that until all of the state relief organizations are functioning, Secretary Hyde will have control of the Government's participation in relief measures.

During his conference with Hyde, Byrd said conservative estimates placed the Virginia drought damage to agriculture at \$100,000,000, including losses to the hay and corn crops.

The use of the wheat held by the Grain Stabilization Board for livestock feed, Byrd said, today, not only relieve drought-stricken farmers, but should increase the price of wheat held by farmers. He suggested that the wheat be sold at reasonable prices and a deferred payment plan where necessary.

In carrying on the relief work, Secretary Hyde today named counties in five states—Virginia, North Carolina, South Carolina, Georgia, and Florida.

Missouri counties included: Audrain, Barry, Bollinger, Boone, Butler, Callaway, Camden, Cape Girardeau, Carter, Chariton, Christian, Cooper, Crawford, Dallas, Dunklin, Franklin, Gasconade, Greene, Howard, Howell, Iron, Laclede, Lincoln, McDonald, Madison, Maries, Miller, Mississippi, Monroe, Montgomery, Morgan, Newton, Oregon, Osage, Ozark, Pemiscot, Perry, Phelps, Pike, Platte, Ralls, Randolph, Reynolds, Ripley, St. Charles, St. Genevieve, St. Francois, Scott, Shannon, Shelby, Stoddard, Stone, Taney, Texas, Warren, Washington, Wayne, Webster and Wright.

Illinois: Alexander, Clay, Crawford, Ford, Fulton, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jefferson, Jersey, Johnston, Lawrence, Madison, Marion, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Richland, St. Clair, St. Louis, Union, Washington, Wayne, White and Williamson.

Hyde said that Southern railroads would put reduced rates into effect in the drought areas of the South tomorrow. The Secretary of Agriculture added that Western railroads were expected to take similar action in the next few days.

Eastern railroads have already put the emergency rates into effect. Hyde also said he felt the general rains of the past few days had ended the drought in many sections and that the "corner had been turned."

FEARING ARREST, KILLS SELF

Man Was Being Questioned in Kansas City Hotel.

By the Associated Press. KANSAS CITY, Mo., Aug. 18.—James Kelly shot and killed himself in a hotel suite while being questioned by detectives in connection with the alleged theft of a motor car in Wichita, Kan., and impersonation of a Federal officer.

Walking to a corner of a room in the suite he and his bride of less than a week had married last Friday, he drew a revolver from his pocket and shot himself in the chest. "Well, I've done a good job this time," he said before he died.

U. S. DRY AGENT IS SUSPENDED

Drew Pistol in Personal Altercation With Motorist.

By the Associated Press. WASHINGTON, Aug. 18.—Prohibition Agent Robert F. Myrtle of Milwaukee has been suspended for five days without pay for drawing a pistol on a motorist with whom he had become engaged in a personal altercation over traffic rules.

Another agent, Basil N. Quinn, of Washington, struck a motorist after a quarrel over the right of way last week and was suspended for five days without pay.

Senator and Mrs. Borah in Maine.

BATH, Me., Aug. 18.—United States Senator William E. Borah and Mrs. Borah are the guests of Federal Judge and Mrs. William S. Kenyon at Sebago, Me. Senator Borah plans to remain in Maine a few more weeks building up his strength so he can actively engage in the fall election campaign, he said.

BOY FLYER ON THE LAST LEG OF TRANSCONTINENTAL TRIP

Eddie Schneider, 18, Seeking Record, Leaves Holbrook, Ariz., for Los Angeles.

By the Associated Press. HOLBROOK, Ariz., Aug. 18.—Eddie Schneider, 18-year-old flyer, left here at 12:10 p. m. today after a stop of two hours, on the way from Albuquerque to Los Angeles. He refused and said he expected to reach Los Angeles in four and a half hours.

ALBUQUERQUE, N. M., Aug. 18.—Eddie Schneider, 18-year-old pilot attempting to set a new junior transcontinental flight record, left Albuquerque at 7:40 a. m. today for Los Angeles.

Schneider was forced to land near Anton Chico, 100 miles east of here, yesterday on his way from Wichita, and came here early today.

Secretary of War a Father.

By the Associated Press. WASHINGTON, Aug. 18.—Mrs. Patrick J. Hurley, wife of the Secretary of War, today became the mother of a daughter. The Hurleys have two other daughters and a son.

FIVE INJURED WHEN AUTO RUNS INTO TELEPHONE POLE

Coupe Forced Off Telegraph Road by Another Machine Which Falls to Shop.

Five persons were injured, four of them seriously, when the coupe in which they were riding was forced off Telegraph road near Jefferson Barracks yesterday by another car which did not stop.

The coupe struck a telephone pole. The driver, Carl Rogge, 19 years old, 4725 Olive street boulevard, University City, suffered a fractured right thigh and internal injuries. Lester Litshner, 19, 7600 Olive street boulevard, injuries to the right foot and both legs; Benjamin Rejert, Jr., 22, 7145 Olive street boulevard, a fractured shoulder; Dorothy Guy, 20, 1155 North and South road, concussion of the brain and fractures of the right thigh and arm; and Grace Guy, 18 years old, cuts of the head.

Lester Camp, 18, 2107 South Grand boulevard, suffered a fractured skull early yesterday when his automobile collided with a Mass. car driven by John Chouteau, 1212 Damme street.

Walter David, 300 East Marceau street, suffered a fractured skull and crushed chest Saturday night when his automobile collided at Hoffmeister avenue and Wachtel road with a car driven by John Chouteau, 1212 Damme street.

KILLS BARTENDER, FIGHTS 25 POLICEMEN IN CHICAGO

Man Finally Overcome by Use of Tear Bombs in Madison Street Saloon.

By the Associated Press. CHICAGO, Aug. 18.—A man, shabbily dressed, killed like Patrick, 45-year-old bartender, today, fought off 25 policemen who cornered him in a West Madison street saloon, and surrendered only after tear bombs had been thrown into the saloon.

The man, who said he was George Hoffman, barricaded himself in a rear room of the combination saloon and restaurant. On the floor beside him, when police rushed in, was the body of Patrick, who had been shot through the head.

Two other men were also taken from the place, blinded by the gas. After the shooting of the bartender, all the customers with the exception of Hoffman and the two others, ran from the place. Hoffman crouched behind Patrick's chair, defying arrest. Police machine guns and shotguns were turned into the place, but an occasional reply from Hoffman's pistol prevented police from rushing the room.

WOMAN BOUGHT CARTRIDGES USED IN KILLING MEN

Canadian "Bootleg King" Questioned After Discovery of Wife's Purchase of Ammunition.

By the Associated Press. HAMILTON, Ont., Aug. 18.—Rocco Perri, Canadian "bootleg king," whose wife, Bessie, was slain last Tuesday night by assassins, was questioned by police today when they discovered that she herself purchased the cartridges for a 12-gauge shotgun. He did not have the type she wished so she went to another store, where she obtained them.

Mrs. Perri was slain by a charge fired from a shotgun as she stood on her doorstep with Perri, near midnight on Aug. 12, about to enter the house after an evening spent with friends. The murderers escaped in an automobile.

SAYS PHONE CALLS REPORTED SENATOR JOYCE KILLED

Widow Hysterical at Inquest Which Is Adjourned Pending Outcome of Poison Test.

By the Associated Press. CHICAGO, Aug. 18.—Mrs. J. T. Joyce at the inquest into the death of her husband, State Senator John T. Joyce, found dead Saturday in his bed, testified today that the night before he died she received 10 telephone calls all telling her that her husband had been shot and killed. She did not tell her husband about them when he came home.

She said her husband retired Friday about midnight and awakened her Saturday morning by his screams. She rushed to his bedroom, she said, but he was dead. Mrs. Joyce became hysterical in giving her testimony and the inquest was recessed indefinitely pending a report from chemists who are analyzing Joyce's vital organs for traces of poison.

Joyce was to have appeared today before the grand jury to elaborate his charges that squads of armed hoodlums toured his home, the Fort-second on the Great Coast, during the primary election, terrorizing voters.

(Copyright, 1930.)

NORTHAMPTON, Mass., Aug. 16.

Business recovery is fear. While some can afford that luxury, to many others it means lack of work and real suffering.

Both the salary earners and the wage earners fear discharge and loss of income. Having seen others discharged they fear they will be next. Anticipating such a calamity they buy only the bare necessities and save against possible unemployment. This is paralyzing the usual flow of commodities and results in the vicious circle of smaller sales, less people employed, and decreased buying power.

Already some leading industries have announced that they will not reduce wages. That is fine, if they furnish work. While time and natural readjustments are the only complete remedies for business recovery, improvement can be made in two ways. Let employers post notices that there will be no more discharges except for cause. Another suggestion already made needs emphasizing. Let all who can, give work at least to one person. Acute conditions require drastic remedies. The property of individuals and stockholders will be worth more in the future if it is used to help those who need it now. Saving people is more important than saving money. Our property must support our population.

CALVIN COOLIDGE.

J. D. LINDSAY DIES IN JEFFERSON CITY

Supreme Court Commissioner, 72, Succumbs to Heart Attack.

JEFFERSON CITY, Aug. 18.—Commissioner James D. Lindsay of the Missouri Supreme Court died today at his home here, of a heart attack. He worked through the week and played golf with friends yesterday afternoon. This morning, not feeling well, he remained in bed and was found dead shortly after 9. He was 72 years old.

Mr. Lindsay, a Democrat, formerly of Clinton and a serving second four-year term as one of six commissioners assisting the Supreme Court in preparing opinions. The commissioners are appointed by the court. He served in the position 11 years.

Mrs. Lindsay and two daughters, Mrs. Harry C. Willson of St. Louis and Mrs. Barnett Goss of Tulsa, Ok., survive him.

Mr. Lindsay was a native of Henry County, where he was practicing attorney for two terms. Later he was Probate Judge for two terms, was a member of the Legislature, and from 1916 to 1924 his assistant counsel of the State Public Service Commission.

Three BURN TO DEATH IN AUTO

By the Associated Press. VEEDERSBURG, Ind., Aug. 18.—Two women and a man were burned to death when an automobile caught fire after colliding with a tree on a highway four miles south of here early today.

The dead are Julia May Ecker, 19 years old, of Buck Creek; Opal Hernalich, 19, of Frankfort; and Blaise Mettler of Lafayette, Tenn. Cline of Camden, a fourth passenger in the car, was severely burned.

POLITICIANS LIKELY TO ESCAPE TRIALS IN ZUTA SCANDAL

State's Attorney Says Stat-
ute of Limitations Would
Bar Gangster's Evidence
for Prosecution.

EIGHT INVOLVED IN CHICAGO EXPOSE

They Are Said to Have
Composed 'Board of Pro-
tection' That Received
Money From Gangs

CHICAGO, Aug. 18.—The statute of limitations arose today to thwart attempts at prosecution on evidence found in the strong box of the slain gangster, Jack Zuta.

Included among the records of Zuta, who was assassinated in a hotel, were papers involving prominent political figures of Chicago. None of the papers, however, was dated later than 1927, and most of them were much older.

The statute of limitations in any of these cases is not more than three years, said State's Attorney.

Each Governed a District.
This notation of the secret eight told also just which part of the county each governed, according to Roche.

Another Zuta notation of considerable interest is that listing a "dividend" of \$30,653.60 paid to "M. K." Records of other payments to this same person over a short time showed an aggregate of \$27,753.40.

A mysterious feature of the Zuta affair is the disappearance of any tangible estate. All banks in the city and county have been called on to report any connections with Zuta.

\$1900 Cash Found on Him.
The only cash so far turned up is the \$1900 found in his pockets after he was shot to death.

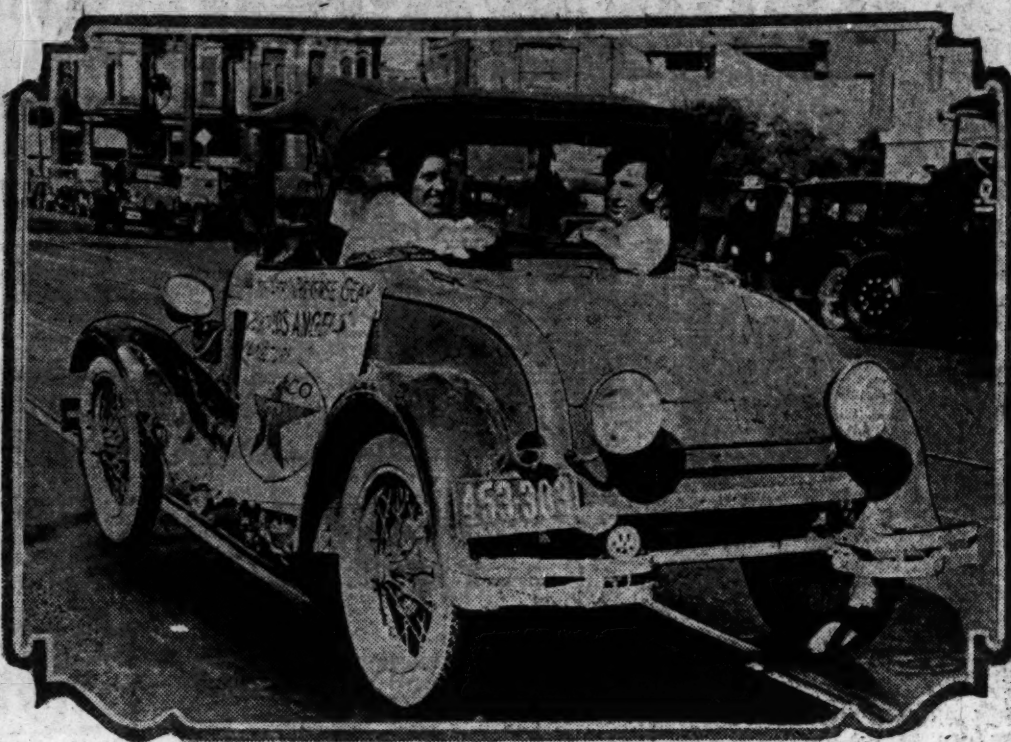

Roche is convinced that valuable documents are concealed somewhere in Chicago. In the records are transactions extending over a period of 15 years, Roche said, some of which are amazing.

Another Graft Charge.
Meanwhile, another graft scandal has broken here. Attorneys McCarty and Duff, made the charge in a suit in the Federal Court that the Highway Trailer Co. of Edgerton, Wis., paid \$500,000 to sell the city \$1,400,000 in bridge trailers.

It also is charged that James W. Menhall, president of the Highway Trailer Co., told his stockholders at one time that the company was unable to pay dividends because it had paid out \$500 for each trailer to officials of the city of Chicago to obtain such business.

It is asserted that Chicago paid \$1000 for trailers for which Birmingham, Ala., paid only \$807. Joseph E. Moody, an engineer of the Department of Public Works, may believe the money was paid to sales agencies, though the city did not deal with them. They had contracts to collect in their territory on all sales whether they made them or not.

Latest Contenders for "What-of-It" Championship

JAMES HARGIS and CHARLES CREIGHTON
In their 1928 model flyover in Los Angeles, Cal., after crossing the continent in reverse gear. They injected a non-stop idea into their 6000-mile stunt by carrying a refueling can. Hargis, 26 years old, lives at 2507 Bredell avenue, Maplewood, and Creighton, 22, at 2534 Gerhardt avenue, Maplewood.

Eller said a number of his friends raised campaign money for him, the source of which he did not know.

Trailer Company's Treasurer Denies \$500,000 Graft Charge.
By the Associated Press.

EDGERTON, Wis., Aug. 18.—J. A. McIntosh, treasurer of the Highway Trailer Co. of Edgerton, today denied the assertion of a private investigator in a suit filed in Chicago that his firm paid out \$500,000 through fake sales agencies in connection with the sale of garbage truck trailers to the City of Chicago.

The charges were made by Robert M. Teller Jr. in a suit against the Fruehauf Trailer Co. of Detroit for \$100,000 for salary and expenses said to have been incurred while investigating business methods of the Edgerton firm.

JACKSON, O'BRIENE
SIGN FOR FLIGHTS
AT 5 STATE FAIRS
Continued From Page One.

Probably will be shipped to the Curtis factory at Buffalo, N. Y., for thorough examination.

Several hours before the landing ground observers noted that the engine appeared to be missing.

O'Brien later said he received the first indication of trouble when the exhaust flame from two cylinders changed from a bluish hue to yellow, causing him to think a valve had stuck.

Small Crowd on Hand.
Fewer than 200 persons were at the field when The Greater St. Louis, with O'Brien at the controls, made a perfect landing.

O'Brien, the first to alight, found his legs would not support his weight after 27 days of comparative inactivity. Friends helped him to stand as his wife rushed forward to embrace him.

Jackson jumped lightly from the plane, but showed a tendency to bobble at the knees. He clasped his wife in his arms, inquiring, "How's the eye?"

Although apparently fatigued and a bit hollow-eyed, both actors appeared in good health. Both had shaved on Saturday and O'Brien's shirt and trousers were comparatively clean.

as they received reporters at the hotel in the afternoon. Both laughed and joked as their photographs were taken.

Despite the contract report of their manager, both flyers declared "there is no money in endurance flying."

The flyers praised the work of their refueling crew, stating that each of the 146 contacts was "perfect." A total of 6500 gallons of gasoline was delivered by the refueler, O'Brien said.

"What was the most difficult part of your flight," a reporter asked.

"Getting by that 553-hour mark of the Hunters," Jackson replied. "After that it was easy sailing."

Just Flying and Sleeping.
In general the endurance feat consisted of "flying and sleeping," the flyers stated. "We had some rough days during the hot weather when he had to be alert, particularly during refueling, but during much of the time it was easy," Jackson, who was at the controls during all refueling contacts, explained.

It was estimated The Greater St. Louis traveled 42,987 miles, or about one and three-quarter times around the earth at the Equator.

Although staying up four days longer than the City of Chicago, The Greater St. Louis consumed about 1000 gallons less gasoline, due to its smaller engine. Oil used by the endurance ship totaled 265 gallons, compared with 400 gallons used by the Hunter brothers' ship.

Jackson, who is 24 years old and was reared on a farm near Fairbault, Minn., and O'Brien, 33, a former motor-cycle racer, gained fame last year with a flight of 17½ days on the St. Louis Robin.

A crowd of 25,000 persons struggled to see them when they landed last year, in contrast to the inauspicious landing yesterday.

Last year's flight, which was backed by the Curtis-Robertson Airplane Manufacturing Co., makers of the planes used in both flights, assumed civic proportions.

The record of 420 hours, 21 minutes, set by Jackson and O'Brien last year, withstood the efforts of all competitors until last month when the flying Hunter brothers set a new mark.

Field Manager O. R. Parks estimated several hundred thousand persons visited Lambert-St. Louis Field during the 27 days of the flight. Last Wednesday, when a fireworks display was held in celebration of the new record, thousands of spectators were on hand and roads leading to the airport were jammed with machines.

CHALLENGES POLICE MARKSMAN WITH A WATER PISTOL

Interior Decorator, Drinking, Has Narrow Escape From Two Bullets.

John Sinnott, interior decorator, 4546 Newberry terrace, drew a nickel-plated water pistol from his pocket early yesterday at Newstead and Edison avenues and called across the street to a policeman: "Come on, copper, let's shoot it out."

Across the street Patrolman O. McAllister, one of the sharpshooters on the force, wheeled around and saw Sinnott apparently threatening him. He drew his revolver and fired three more in the air, and brought him to a halt.

In Police Court today McAllister said, "I don't see how I missed him with the first two. I must have been nervous." Sinnott, charged with disturbing the officer's peace, pleaded guilty and was fined \$100.

TO JAIL FOR SIX MONTHS
UNDER ILLINOIS DEBT ACT
Grocer Arrested on \$10,000 Judgment for Injuring Man With Auto in 1928.

Joseph Costa, East St. Louis grocer, of 24 St. Clair avenue, was taken to St. Clair County Jail at Belleville today to serve six months under the Illinois debtor's act.

Costa disappeared in June, 1928, a day after a judgment of \$10,000 had been rendered against him by a jury in City Court for personal injury. Robert McGlyn Jr., attorney for Louis Schwent, of 5055 Gerulding avenue, St. Louis, who was injured by Costa's automobile, recognized him on the street today and caused his arrest.

McGlyn paid county authorities \$7 in advance for the first week's board for Costa. Under the law, the debtor must remain in jail as long as the aggrieved party pays his board of \$1 a day, the maximum term being six months.

Schwent was repairing a punctured tire on the highway near National City, where he was employed as a railroad mechanic, Nov. 10, 1927, when Costa's machine struck him, knocking him unconscious. Costa and two companions, according to testimony at the trial of the injury suit, laid Schwent beside his wrecked machine and fled. Schwent's leg was fractured.

Wichita Flyers Forced Down; Up Less Than 12 Hours.
WICHITA, Kan., Aug. 18.—After being in the air less than 12 hours, the endurance plane, City of Wichita, piloted by Charles Lander and R. O. Rudd, was forced down by a leaky gasoline line today.

The refueling plane is the original City of Wichita, which lost a wheel and turned over with Col. Charles A. Lindbergh in a landing at Mexico City more than a year ago.

Rankin Brothers Land After 24 Hours at Portland, Ore.
By the Associated Press.
PORTLAND, Ore., Aug. 18.—Because of an intermittent air lock in gas lines and trouble experienced in taking off aboard, the endurance monoplane, On to Oregon, piloted by the three Rankin brothers, landed at Rankin airport at 11:25 p. m. today, about 16 hours after they took off yesterday.

WAKEFIELD AIR TROPHY WINNER ARRIVES HOME

Joseph Ehrhardt Greeted at
Lambert Field—Congratulated by Acting Mayor.

Joseph Ehrhardt, winner of the Wakefield international model airplane trophy, arrived at Lambert-St. Louis flying field at 1:25 o'clock this afternoon aboard Universal Air Lines Chicago-St. Louis passenger plane.

Joseph, 17-year-old son of Mrs. Ben C. Ehrhardt, 7020 Wism avenue, has been in Europe, where he traveled after winning the Wakefield trophy in London in competition with boy champion model airplane builders of other nations.

In winning the championship, he kept a model airplane aloft for two minutes and 55 seconds. A dozen automobiles, including the red and gray sedan, which he won, were at the field to form a parade for the young international champion.

He rode in the fire chief's car with his mother and brothers. Several boys who participated with him in the national model trophy trials at Detroit, found seats in a stent equipped Police Department touring car usually employed to answer bank holdup alarms.

Escorted by motor cycle policemen, the Ehrhardt party, including city and Chamber of Commerce officials and members of Joseph's Boy Scout Troop No. 146, was driven to the City Hall where Acting Mayor Neun congratulated Joseph on his victory, commented on the young man's slight resemblance to Col. Charles A. Lindbergh, and told Mrs. Ehrhardt she should be proud of so enterprising a son. Mrs. Ehrhardt was, and said so.

Joseph expressed brief thanks for the reception and in a few minutes departed for home.

Planes of the Thirty-fifth Division air unit Missouri National Guard and the Goodyear dirigible, Puritan, circles above Lambert-St. Louis field as the passenger plane landed.

Tomorrow Joseph will be the guest of the Chamber of Commerce as a member of the Greater St. Louis delegation to the Missouri State Fair at Sedalia and Wednesday he will attend a luncheon at Hotel Jefferson given by a number of St. Louis civic organizations.

In order to compete at London Thirhart first had to win the St. Louis competition under auspices of the St. Louis Airplane Club and the American competition held at Detroit last June. He is a member of the local club.

It Is a Mistake to Disparage St. Louis Climate, Says Forecaster

Roscoe Nunn in Radio Address Declares Low
Humidity Makes Heat Bearable—Records
Set in His First Year Here.

A manful defense of the weather was delivered by Roscoe Nunn, Government meteorologist—who has encountered a great deal of it in the year since he took charge of the Weather Bureau here—in yesterday's Community Forum broadcast by KMOX.

"It is a great mistake," he declared, "for a citizen to speak disparagingly of his climate, especially when he makes unfair comparisons based on lack of information."

He detailed the whole story of the weather which has come to St. Louis since he came here, a record snowfall of 4.5 inches last Thanksgiving with a record cold November day of three degrees above zero on the thirtieth; a remarkably cold and muggy January followed by the warmest February on record—but that kind of record-breaking was not noticed like the January kind; the dry spring and the summer both hot and dry, with the hottest day ever recorded in St. Louis, July 23 with 107.3 degrees, and as high a number of 100-degree days as any recorded.

And then he started in to justify it. He pointed out that St. Louis had comparatively low humidity. "A temperature of 100 degrees here is often no harder to bear than 90 degrees at some coast city," he said. "It is essential that humidity and temperature be considered together."

Merit of Perspiration.
This, he said, was because a normally perspiring person is not like a wet bulb thermometer, but like the "wet bulb" thermometer, used in official determination of relative humidity.

The wet and dry thermometers "were whirling around in the air. In 100 per cent humidity, which meant the air had all the moisture it could hold, they would read the same. In very low humidity, the "wet bulb" thermometer, cooled by evaporation, might read 20 degrees cooler.

"The healthy, normal person," said Nunn, "comes nearer experiencing the wet bulb reading, say of 70 degrees, than the dry bulb reading of 90 degrees. But a sick person, one with a fever or not perspiring properly, will feel the dry bulb temperature.

"St. Louis climate is mostly good," he said. "During the autumn and spring the climate is excellent. We get occasional bad spells of weather in winter and summer; but not more so than other cities in this belt of latitude and in the interior of the country."

"St. Louis is not the hottest place in the country, of course; but it is a prominent city, and the high temperatures reported occasionally attract general attention."

Hottest Places in World.
He cited four places believed hottest in the world—Sahara, with air temperatures reported as high as 154 degrees; Death Valley, with 134; Mesopotamia, with 130, and Algeria, with 127.

"As to the question about living in St. Louis with the temperature at 110," he said, "healthy people could no doubt stand it for an hour or two occasionally; but it would certainly take the joy out of life."

Citing that record-breaking weather never exceeded to any great extent the previous records, and that 10-year averages were practically unvarying, he said, "Of course, it is evident that there have been decided changes in climate in the course of geologic ages, but not in recorded history."

Rain-Making Impossible.
The popular belief that rain-making is possible is utterly false, he said, and claims of rain-makers have been disproved. The similar impression of many persons that it snowed more when they were children he attributed to the fact that children saw more of it, and that streets and roads were not cleared as now and homes were not heated so well.

He was inclined to place in the same class the ideas about location of the Weather Bureau thermometer, sometimes facetiously described as the Government "ice box." Government records and forecasts—on which the betting average of correctness was 85 to 90 per cent—required temperatures taken in free air unaffected by artificial heat. The only such place in a large city was above the roof of a tall building, such as the Weather Bureau location on the Railway Exchange Building.

He said maximum temperatures on a second floor north porch of his home on Pershing avenue were three degrees lower than the official Railway Exchange reading, and that maximums averaged less than a degree higher on an official thermometer five feet above the ground at Lambert-St. Louis field, although low temperatures there are sometimes five degrees lower than those downtown.

not more so than other cities in this belt of latitude and in the interior of the country.

"St. Louis is not the hottest place in the country, of course; but it is a prominent city, and the high temperatures reported occasionally attract general attention."

LIFE-TERMER SEEKS PAROLE AFTER 4 YEARS

Russell L. Miller Sentenced for
Murder of Mrs. Callie Black
in Rear of Garage.

Special to the Post-Dispatch.
JEFFERSON CITY, Aug. 18.—Russell L. Miller, who pleaded guilty of murder in St. Louis April 19, 1926, and received a life prison sentence, is one of four St. Louisans whose applications for parole are being heard by the State Penitentiary Board today.

Nine other prisoners at the penitentiary also will present parole applications.

Miller, who was 21 years old at the time of sentence, pleaded guilty of murdering Mrs. Callie Black, 25 years old, 3879 Delmar boulevard, Dec. 6, 1925. Her body was found in an alley in the rear of a garage at 4819 Delmar boulevard.

Mrs. Black had been selling flowers to aid disabled veterans of the World War shortly before she was killed. Miller changed his plea from not guilty when his attorney discovered 11 of 24 venereal marks called for the trial had served as soldiers in France.

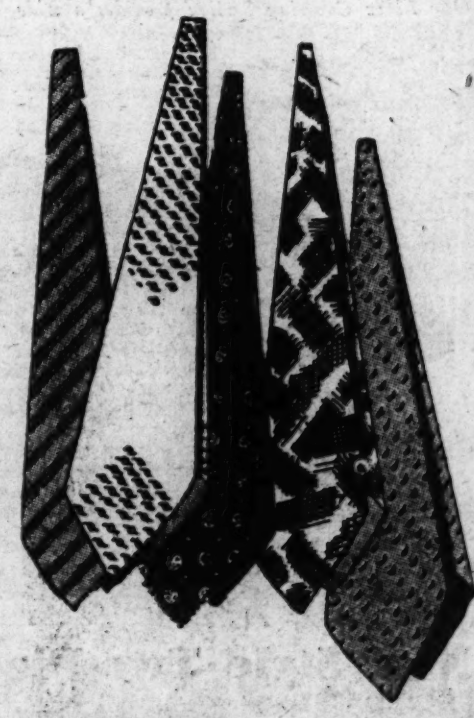

He was arrested after a trail of blood was found leading from the body to the office of an express company where Miller was employed. Questioned by police, Miller confessed he had gone with the woman, whom he "picked up" in a beer flat, to the express company office and had beaten her with a lead pipe after a quarrel. He said Mrs. Black asked him for money and when he refused to pay, took his pocketbook. Both had been drinking, Miller asserted.

The other St. Louisans whose parole applications are being heard today are: Clarence Davis, seven years from May 23, 1923, for attempted robbery; Willie Johnson, two years from Feb. 24, 1920, for grand larceny, and Clifford Chapman, two years from Sept. 7, 1925, for theft of an automobile.

Chief of Police Gerk has written ten a letter to the board protesting against granting Miller a parole and stating that the murder of which he pleaded guilty was particularly atrocious.

Mrs. Jennie Kaiser Dies.
Mrs. Jennie Kaiser, 69 years old, died last night at her home, 723 Pennsylvania avenue, following a heart attack. Funeral services will be held at 10 o'clock tomorrow morning. Surviving are seven daughters, one of whom is Miss Flora Kaiser, book editor of the Globe-Democrat.

Summer COLDS

Almost everybody knows how Bayer Aspirin breaks up a cold—but why not prevent it? Take a tablet or two when you first feel the cold coming on. Spare yourself the discomfort of a summer cold. Read the proven directions in every package for headaches, pain, etc.

WON'T DROP CHARGES AGAINST EWALD

District Attorney to Seek Another Grand Jury if Present One Fails to Act.

By the Associated Press.

NEW YORK, Aug. 18.—Charges that \$12,000 was paid to influence the appointment of George F. Ewald as City Magistrate will be given to a new county grand jury if that now in session persists in its refusal to return indictments. District Attorney Crain declares.

Denying that the charges would be dropped because the present jury declined last week to indict anybody, Crain indicated today that the grand jury now in session might still take action.

If it does not, he said, he would ask the Court for permission to submit to another grand jury the evidence against Ewald, who resigned as Magistrate after his indictment for mail frauds in mining stock sale; against Mrs. Bertha Ewald, his wife, who lent \$10,000 without interest to Martin J. Healy, Tammany district leader, and against Healy and Thomas T. Tompkins, through whose hands, it is alleged, the loan passed.

The money was lent at about the time of Ewald's appointment to the bench in 1927. Mayor Walker has asserted that if anybody paid any money in the hope of influencing him to name Ewald "the money might as well have been thrown in a sewer for all the good it did."

Gov. Roosevelt has asked for the records in the Ewald case. They were sent to him by Crain today.

KNIGHTS OF COLUMBUS IN NATIONAL CONVENTION

By the Associated Press.

BOSTON, Aug. 18.—A radio address by Supreme Knight Michael H. Carmody of Grand Rapids, Mich., was the principal event in yesterday's activities of the forty-eighth annual Supreme convention of the Knights of Columbus here. Carmody paid tribute to Catholic women in his talk, which was addressed to the Daughters of Isabella, Catholic women's organization. He especially thanked them for their service during the World War to the soldiers of all creeds.

Gov. Frank G. Allen of Massachusetts and Mayor James M. Curley also spoke over the radio on the convention's program.

At a dinner last night of fourth degree members and their guests, John E. Swift of Milford, supreme director, spoke of a league for truth against defamation. He said Cardinal O'Connell was heartily in favor of the idea and urged all E. of C. councils to make themselves units in such a league, combating mud-slinging and defamation.

3 OF WADING PARTY DROWN

One Makes Futile Attempt at Rescue in the Kaw.

By the Associated Press.

BONNER SPRINGS, Kan., Aug. 18.—Three persons were drowned in the Kaw River here last night when a wading party got beyond its depth. They were R. D. Stump, 60 years old, Bonner Springs; Mrs. Geneva A. Smith, 30, Kansas City, and Oliver Ovdarkirk, 12.

Stump gave his life to save his daughter-in-law, Mrs. Mae Stump. Unable to swim, he dashed into deep water in an attempt to draw her ashore, lost his footing and went down. Mrs. Stump was saved by William Fargarson, Kansas City, another member of the party, who shoved a log into her hands.

A Strikingly Beautiful Dining Suite

9 Pieces—with
China Cabinet,
Special at **\$165.00**

This Dining-Room Suite has been much favored in this sale. People who have bought it tell us that nothing in St. Louis can match it. This cut is taken from an actual photograph. It is a good representation of the suite but it cannot convey to you the real beauty and depth of finish of the woods. These specifications will help you in properly appraising it! The china cabinet is six feet high and 38 inches wide. The extension table is 44x60 inches. Walnut veneers with maple overlays, delicately cut moldings, a velvet lined silver drawer and white oak interiors are quality details. See it... compare it... then decide!

Our Floor Covering Section provides a wide variety of Rugs and Carpets for Dining Rooms

New Style Two-Piece Suite

Special at..... **\$185.00**

Choice of Two Covers

We illustrate a distinctively different type of Living-Room Suite. It is conceived along conventional lines with new style touches that set it apart from the commonplace. Note the facing of carved wood on the arms and the carved legs. The Suite is covered in good quality mohair either green or wood rose with reverse seat cushions in linen frize. It is of approved Lammert quality and is representative of hundreds of like values in the August Clearance.

See Our Collection of Appropriate Floor Coverings for the Living Room (Third Floor)

Tastefully Designed Bedroom Suite

3 Pieces—Bed,
Chest and Dresser, **\$145.00**
Special at.....

We submit this suite as representative of hundreds of like values in our Bedroom Furniture Section. It is distinguished by a tasteful design which is set off by a perfect blending of ornamentation with full tones of rich color in the finish. Delicate inlays in walnut veneers with striped Oriental walnut panels and bandings achieve a beautiful effect. The open work carving on the head and the foot of the bed is unusual. Mahogany veneer drawer bottoms and dustproof construction are further quality details.

TWO ROBBERS GET \$185 IN HOLDUP OF GROCERY

Jack Pruss, 2700 Thomas Street is Victim; Lodger Awakens to See Burglar Fleeing.

Jack Pruss, grocer at 2700 Thomas street was robbed of \$185 in cash at 1:45 a. m. today by two men who held him up in his store and escaped in an automobile.

Herbert Tomson, rooming at the home of Martin Pfander, 5946 Cole Boulevard avenue, awoke at 4 a. m. and saw two men run from his room. The men had taken \$17 from the trousers of Tomson, Pfander and another roomer.

Investigating a noise in her dining room early yesterday, Mrs. Sophia Lavine, 6411 Wabasha avenue, found two young men, who seized her, pushed her into a closet and tied with a purse containing \$32.

Returning from church through an alley behind 4129 Kennerly avenue, Mrs. Laura Landers, 63 years old, 4114 St. Louis avenue, was stopped by a Negro, who seized her purse, containing \$14. Mrs. Landers fainted, suffering a scalp wound as she fell to the pavement.

When Segundo Manrique opened his restaurant at 3311 Olive street yesterday morning he found that burglars had taken his cash register, \$7 in cash and a quantity of cigars.

John McElwre, 3156 Park avenue, reported that two men held him up in his garage last night and escaped with \$200 in cash.

Joseph Hastings, 5334 Shreve avenue, was robbed of his automobile last night by a man who asked for a ride at Grand boulevard and Dodier street and drew a pistol after he had ridden two blocks.

Robbers Tie Watchman, But Fail in Effort to Blow Safe.

Three safeblowers withdrew from the office of the Standard Oil Co., Fifth street and Converse avenue, East St. Louis, after failing to blow the safe, last night.

After tying a night watchman, Alvin Bagwell, hand and foot in a washroom, they knocked off the combination, drilled a hole next the lock and set off an explosive. When it failed, they departed, after a hurried consultation, warning Bagwell not to make an outcry for 10 minutes.

Bagwell wriggled to a desk telephone and called for help, removing the receiver with his teeth. Bagwell was washing his hands in the washroom when the men, one armed with a revolver, entered.

Woman Burned to Death.

TRYON, Ok., Aug. 18. — Mrs. John Drake, wife of a farmer, was burned to death yesterday in the destruction of her home near here after disregarding her husband's plea to jump from a second-story window.

SHOUSE ACCUSED OF SLANDER

By the Associated Press. WASHINGTON, Aug. 18.—A charge that Jett Shouse, chairman of the Democratic National Executive Committee, has attempted to "slander and malign" President Hoover is made in a statement by Representative Wood of Indiana, chairman of the Republican Congressional Committee. Wood said criticism and misrepresentation "are about the easiest and cheapest things in which political spokesmen can indulge," adding that Shouse has become a past master at the art of both, but more particularly at that of misrepresentation. "The plain truth is," he asserted, "that Mr. Shouse and his cohorts have one purpose only; to assail, to slander and to malign the President of the United States and to attempt to block his every effort to carry forward the great tasks to which he has set his hand."

NIGHT CLUB RAIDED AFTER DISTURBANCE

Two Men, Three Women Arrested at the Bohemian—Liquor Seized.

After receiving three telephone calls from the Bohemian Club, Market street and Commercial alley, police early yesterday arrested the two proprietors and three women when they reported they found a quart of gin and two pints of whiskey.

Adolph Warner called police when a group of men objected to the amount of their check. When they returned and caused another disturbance police were summoned again. The bottles were found on the floor near tables of persons who disclaimed ownership.

Police arrested Warner and his partner, Albert C. Reynolds, both of 5746 Kingsbury avenue. The women held said they were Ila May Moseley, 4181 Washington, in charge of the hat check stand; Miss Pat Montgomery, 4119 Westminster place, and Mrs. Ines Fickel, 1842 Lockwood avenue, Webster Groves.

Harry Dunn, 702 Pope avenue, and 16 guests were arrested when police said they found five bottles of beer at his home after they had sent a man who had been stabbed to City Hospital. The injured man is John Burgoyne, 28 years old, 2648A North Market street, who suffered wounds of the chest, back and left arm.

Six men were arrested in a poolroom at 2643 Lafayette avenue, where police reported they were playing poker.

Other liquor raids: Cigar store at 2620 Morgan street, Noah Hickman, Negro; saloon at 5101 Manchester avenue, Carl Calcestrera; 266 North Leonard avenue, Edward Bell; 223 Kraus street, Mrs. Emily Dauch; barbecue stand, 2200 Morgan street, Benjamin Hunn, Negro; 10 South Eleventh street, Clem Howard, 4146 South Wharf, Willie Watkins, Negro woman; 1410 Biddle street, Iola Cave; fruit store at 912 North Ewing avenue; Room McGowan; 1517 South Broadway, Theodore Dahms and 19 men; 1211 Dillon street, Walter Janis; 3434 Walnut street, Tony Maio; 1912 North Eleventh street, Leo Logan, Negro; 2900 North Ninth street, Gus Fogg and two men; 5547 Wabasha avenue, James Jones; 2314 Delmar boulevard, Mary Marks.

INVESTIGATION IN FOOD PRICES OPENED BY NEW YORK STATE

Attorney-General Informed of Alleged Attempt to Put Milk Up 4 Cents a Quart.

By the Associated Press. NEW YORK, Aug. 18.—Investigations of alleged profiteering in milk and other foodstuffs today engaged the attention of the office of State Attorney-General Ward. Reports of efforts to force up the price of milk 4 cents a quart have reached the Attorney-General.

Assistant Attorney-General Groat sent out dozens of subpoenas over the week-end for witnesses to appear at the food investigation, in charge of John Holley Clark Jr., former chief assistant United States attorney. Agents were sent to various parts of the State to serve subpoenas on dealers in foodstuffs.

CIRCUS IN ST. LOUIS AUG. 31

Ringling Brothers and Barnum and Bailey Circus will play in St. Louis Sunday, Aug. 31, and Monday, Sept. 1. Performances will be given twice daily at Grand boulevard and Laclede av nue.

One of the features of the show is a group of Ubangi, African natives, who entertain the U.S. by artificial means until they sometimes attain the size of plates. The circus will arrive in St. Louis in its own 100 railroad cars from Chillicothe, Mo.

DOUBTS WISDOM OF U. S. AID FOR FARMERS

Subsidy as Dangerous as Drouth, Declares Robert W. Kelso.

The relief of drouth sufferers by the Government is an enterprise as dangerous as the drouth, Robert W. Kelso, director of the Community Fund, argued yesterday in the organization's question period over Radio Station KMOX.

"If our public authorities have the good sense to keep this problem on an economic basis instead of making it a handout of public money to individuals who may be in distress, much good may come both to the thousands who are so hard hit and to the nation as a whole," Kelso said. "But if we fall into the practice of rushing public subsidies to cover special losses, except in the most urgent disaster emergencies, we shall find our course highly dangerous to the welfare of democracy. Once set up the practice of helping individuals wholesale, and you put a moral strain upon political parties which is probably too heavy for them to bear. The citizen in a democracy, like the serf under despotism, and in no different way, soon learns to eat out of the hand of power and loses his ambition to support himself."

Discussing the overland in family relief, Kelso related that the Salvation Army of St. Louis had given 750 mothers and children a 10-day outing at its farm near Ferguson, but because of lack of funds, it would be unable to care for a sixth group of 150 mothers and children that it normally accommodates at this time.

"This is close to tragedy," Kelso said. "To these people who have to live cooped up in one or two rooms under a tin roof when St. Louis is a furnace, a week's outing might even be the means of saving lives."

300 ST. LOUISANS EXPECTED TO GO TO MISSOURI FAIR

Delegation to Leave at 8 a. m. Tomorrow and Return Late Same Night.

Last minute reservations are being accepted for the St. Louis delegation which will celebrate St. Louis day at the State Fair at Sedalia tomorrow, according to announcement by the Chamber of Commerce committee.

Former Mayor Henry Kiel, chairman of the committee, said private citizens as well as representatives of civic and fraternal organizations were urged to go. About 300 persons are expected to make the trip, but efforts are being made to get a delegation of 400.

A special train will leave St. Louis at 8 a. m. tomorrow and will start back from Sedalia at 6:30 p. m., arriving here at 11:15.

Joseph Ehrhardt, St. Louis boy who won the Wakefield Trophy in the international model airplane contest in London, will accompany the delegation and give an exhibition of his model. A squadron of airplanes from the Thirty-fifth Division of the Missouri National Guard will fly to the fair.

Killed in Speedboat Race

By the Associated Press.
CHISHOLM, Minn., Aug. 18.—John A. Johnson, 28 years old, Duluth, was killed yesterday when his speedboat capsized during a race. He was thrown against two other boats.

SWIMMER REPORTS FINDING BODY IN LAKE

Madison County Authorities Make Vain Search for It, However.

Madison County authorities today dragged Long Lake, opposite the Green Lantern roadhouse, four miles north of Granite City, in search of the body of an unidentified person, thought to be a man, or boy, reported found by a swimmer, Merle Wood, 2022 Gross avenue, East St. Louis, yesterday.

Wood, in swimming with his 14-year-old son, took the body after diving in 10 feet of water. Thinking it to be his son, from whom he had become separated, he hurriedly brought it to the surface. A hurried glance, however, revealed his son standing in shallow water near the lake and Wood, shocked, released the body and swam to the bank.

Coroner Ed Mercer was notified and three divers were sent to try to find the body. After more than an hour of diving, they gave up the task, declaring the bottom of the lake was covered with a thick growth and they feared becoming entangled in it. If today's dragging proves fruitless, the lake will be dynamited. Long Lake is a narrow body of water extending from Mitchell to East St. Louis, a distance of about 10 miles. It has a swift current.

No drownings have been reported in the neighborhood of the Green Lantern lately. Granite City authorities think the body may be that of a victim of a murder. Wood said he thought the body was that of a man or boy because the hair was clipped short.

CORONER'S VERDICT CHARGES CRIMINAL CARELESSNESS

Two Men Held Under Bond After Laborer Is Run Down by Work Train.

A coroner's verdict of criminal carelessness was returned today in the death Saturday of Cornelius Vanderberger, a 50-year-old laborer, or of 2217 Texas avenue, who was killed when struck by a work train of the Public Service Co. when he was working with a repair crew at North Broadway and Swinging avenue.

Jacob Schroer, 44 years old, motorman of the work car, of 7009 Minnesota avenue, and Herschel Trotter of 4738 Maffitt avenue, a laborer on the train, were held under bond for the grand jury. The Circuit Attorney's office, however, said the case probably would not be presented to the jury because of insufficient evidence. No eye witnesses testified.

NEARLY 1,000,000 PERSONS VISIT CITY AIRPORT IN YEAR

27,000 Take Sightseeing Trips, Field Manager Parks Says in Report.

From 750,000 to 1,000,000 persons visited Lambert-St. Louis airport during the fiscal year ending April 1, last, Field Manager O. H. Parks estimates in his annual report submitted to Park Commissioner Pape today.

Sightseeing planes took 27,000 persons aloft and 159,887 pounds of air mail were handled at the municipal airport. Two flying schools graduated 910 mechanics and pilots and two manufacturing plants, representing an estimated investment of \$1,850,000, employed 975 persons. Three of four air passenger lines carried 4901 passengers out of and 7622 into St. Louis.

Eighty-two planes use the airport as their base.

EIGHT KILLED IN GERMAN BUS

By the Associated Press.

SPINDELMEUEHLE, Silesia, Germany, Aug. 18.—Eight persons were killed and six injured in a motorbus accident here yesterday. An overland bus carrying 13 passengers skidded on a wet road, smashed through a stone wall and plunged into the Elbe River. The conductor saved himself by jumping off, but the chauffeur and the passengers were all carried into the river.

LAW LIBRARY MOVED TO NEW CIVIL COURTS

Collection of 40,000 Volumes
Includes One Book Published in Paris in 1480.

The 40,000 volumes which comprise the collection of the St. Louis Law Library Association were moved today from quarters in the Pierce Building to the specially designed library room on the top floor of the new Civil Courts Building.

Moving vans were used to transport the collection which "H. Chouteau Dyer, president of the association, estimated as worth about \$750,000. Many of the volumes, collected since the library was established in 1917, are out of print, while the oldest book is a treatise on Norman-French law published in Paris in 1480.

At the request of the Downtown Building Owners' Association which is endeavoring to persuade lawyers to retain offices in buildings near the old library, Dyer is preparing a contract under which the building owners' association will finance a branch library, giving \$12,000 for the purchase of books and pay \$4000 a year for maintenance. The branch would occupy about half of the old quarters.

Policeman Kills Wife.

PITTSBURGH, Pa., Aug. 18.—After a quarrel during a midnight lunch in their home, Michael Korvath, East Pittsburgh policeman, shot his wife to death, then went to a bedroom and shot himself early today. He was reported in a critical condition in Braddock General Hospital.

SO MANY WOMEN MAKE THIS MISTAKE

A face powder may be good, but the true test must be your own skin.

A face powder of any old texture won't do any longer. Women all over the land have learned from the leading beauty specialists that there are three types of skin—only, dry and normal and that the powder for one texture type, will not suit another. Plough has met this modern need with three face powders, each of different texture and each individually made to meet exactly the needs of those three skin types.

THE PLOUGH FACE POWDER FOR YOUR EXACT TYPE OF SKIN WILL GIVE YOU GREATEST BEAUTY

If your skin is oily, use heavy texture Plough's "Eucalyptus Face Powder" in the oval box, 75c.

If your skin is dry, use light texture Plough's "Favorite Bouquet" in the square box, 50c.

If your skin is normal, use medium texture Plough's "Exquisite" in the round box, 50c.

Each of these Plough Powders come in five modern tints—white, light pink, pink, sun-tan, tan. Plough's Three Face Powders are sensibly priced wherever beauty creations are sold.

If you are not certain as to exactly which Plough Face Powder gives you the most beauty to your own skin, write Plough, Inc., 1000 Broadway, New York, N.Y., enclosing the list you want and you will receive absolutely free a complete test package of the three different powders.

PENN A. C. CREW IS WINNER IN INTERNATIONAL 8-OARED RACE

LIEGE, Belgium, Aug. 17.—The Penn Athletic Club eight yesterday won the championship of the international rowing regatta, defeating Denmark and Italy in the final.

Going to the post the favorites, the American crew took no chances, towing hard from the start. At the end of the 2000-meter bank, the Penn eight was two lengths in front of Italy, with Denmark third.

The Penn crew and the Quince Boat Club four, which lost in the semifinals, sailed for America. Italy made a great bid at the 1500 meter mark, reducing the

GALLANT FOX WILL BE POINTED FOR CUP FEATURE AT SARATOGA

BOWED TENDON LIKELY TO END RACING CAREER OF "WHICHONE"

By the Associated Press.
NEW YORK, Aug. 18.—Carrying on in quest of the turf's all-time money winning record despite his surprising defeat by Jim Dandy in the Travers Saturday, Gallant Fox will run in the Saratoga cup on the closing day of the meet and then keep his engagements at Belmont Park in the Lawrence realization and the Jockey Club gold cup.

Although turned back by a rank outsider in his campaign to go through the current season undefeated and pa. Zev's money-winning record of \$212,000, the big red son of Sir Gallahad III still stands a good chance of achieving the latter aim. Second in the Travers paid only \$4000 but it boosted the Fox's total earnings to \$278,850. Each of his remaining engagements will have a value in excess of \$25,000.

Comes Out of Race Sound.
Gallant Fox came out of Saturday's stake sound and Trainer Sunny Jim Fitzsimmons immediately said there would be no change in the plans for the Woodward star. Fitzsimmons offered no alibi for his champion colt except to say that he evidently did not like the heavy going.

Harry Payne W. may's Whichone, "high finished third back of Jim Dandy" and the Fox, probably has run his last race. The famous son of Childe has a bowed tendon in his fore leg and as it is a low bow near the ankle, it is considered very serious. Contrary to early belief the injury has no relation to the quarter crack, which forced his temporary retirement following his defeat by Gallant Fox in the Belmont stakes.

No Return Met.
There is no chance that Jim Dandy and the Fox will meet again at Saratoga. Calce Earl's colt's only other engagement at Saratoga is in the American Legion

Two killed in Xena (Ill.) Crash. CENTRALIA, Ill., Aug. 15.—Mrs. F. J. Milligan, Louisville, Ky., died in a hospital here last night from injuries suffered in an automobile accident near Xena, Ill., yesterday afternoon. Harvey Lake, a Negro, was killed. Mrs. Milligan's husband is in a hospital here in a serious condition. Mrs. Milligan was driving a small car when it collided with a larger car containing seven negroes from Centralia, on the way to Xena for a baseball game. John Bibba and King Harrell were seriously injured.

SCHOOLS AND COLLEGES

AN EVENING HIGH SCHOOL

SEVERAL HURT IN STAMPEDE

AT EMPLOYMENT BUREAU

Crowd of 8000 Awaits Opening of Free Job Office in New York.

NEW YORK, Aug. 18.—A 55-year-old job-hunter was trampled by a crowd of 8000 unemployed who tried to push their way into the city's free employment bureau when its doors were unlocked this morning. The man, Jacob Snapp, was taken to a hospital and treated for scalp lacerations. Several other persons suffered minor injuries in the crush, but declined medical attention.

The line began to form outside the bureau at 3 a. m. and officials estimated that almost 6000 were waiting when the doors were opened. The line reached for several blocks, extending along the side of the Tombs prison, from which prisoners watched the crowds with interest.

The 21 clerks in the bureau received the applicants in groups of a hundred and within two hours had given jobs to 75. In the line were several hundred women.

Oil Gusher Sealed Up.

By the Associated Press.

OKLAHOMA CITY, Ok., Aug. 18.—The C. C. Julian No. 2 House

gusher in the South Oklahoma City oil field was shut in today with cement after running wild for 25 hours, endangering homes and business houses.

TWO MILK TRUCKS FIRED ON

IN STRIKE AT KANSAS CITY

Cargo of One Is Dumped. While Driver of the Other Speeds On.

By the Associated Press.
KANSAS CITY, Mo., Aug. 18.—Kansas City's milk strike was marked by shooting again yesterday when raiders dumped one truckload of milk and attempted to stop another. Both attacks were on loads consigned to Kansas City.

Kan. distributors.

The first raid was on a truck driven by Roscoe Agers and occurred 20 miles west of Kansas City, Mo. Four men in an automobile called on Agers to halt, and fired four bullets into his load when he failed to comply. They drove away after dumping the consignment, about 150 gallons. The other attack was on a 1500-gallon tank truck proceeding toward the city a mile west of Victory Junction. Carl Christ, the driver, said

two shots were fired at his machine from ambush. One shot

punctured a rear tire, but Christ

did not stop as the truck was equipped with double tires. First violence in the strike appeared last Wednesday when several shots were fired at a loaded truck south of here on Highway 17. Saturday three truckloads, aggregating 200 gallons of milk, were dumped. The producers' association is demanding installation of a check-off

system whereby they hope to gain

recognition of their organization.

Receivers Investigate Hoax.

NEW YORK, Aug. 18.—A test suit brought by the North German Lloyd line against the Collector of Customs in New York to recover \$2177.50 in fines paid for bringing in undesirable immigrants was decided today in favor of the steamship company. Federal Judge Woolsey ruled the company had a right to rely on visas issued

by American consuls to prospective

immigrants. More than 40

similar actions are pending for recovery of fines aggregating \$450,000.

Fire in Molasses Wharf. By the Associated Press. KANSAS CITY, Aug. 18.—Fire of undetermined origin in the Tardis Molasses and Feed plant did damage yesterday estimated by the president, A. H. Schmidt, at \$175,000. The principal loss was in grain and new machinery.

CHAMPIONS must be SURE So it was PEVELY again for JACKSON and O'BRIEN

Perseverance must be combined with healthy body and sound mental condition. Only then can perseverance accomplish the seemingly impossible.

Possessing the perseverance, Jackson and O'Brine naturally depended upon Pevely in their fight against mental and body strain. It took them to a World's Record for Flight Endurance a year ago and this time it has made possible the gaining of even greater glory.

Include Pevely in your daily meals—a quart a day—and you will go further—whatever your ambition may be.

COTTON PRICES
DROP TO LOWEST
IN 15 YEARSHeavy Selling Sweeps New
York Market and De-
presses Prices \$2.50 to
\$3.00 a Bale.

By the Associated Press.

NEW YORK, Aug. 18.—Heavy
selling swept through the New
York cotton market today, depress-
ing all future positions from \$2.50
to \$3.00 to the lowest levels sincethe outbreak of the Liverpool mar-
ket, and reports of better weather
over the cotton crop have
suffered less acutely than other
crops, prompted the heaviest sell-
ing in several days.The October delivery fell well
below 10 cents a pound.Future closed weak, 11.12 to 11.13

SHANTUNG AGAIN
UNDER CONTROL OF
NANKING REGIMENationalists Declare Rebels
Have Retreated Across
Yellow River—130 Field
Guns Taken at Tsinan.WITHDRAWAL FROM
HONAN REPORTEDCommunist Disorders Con-
tinue in Yangtze Valley
and Small Cities Are Pil-
laged by Reds.NANKING, Aug. 18.—Sweeping
claims of victory on the battle-
fields of Northern China caused
high government circles today to
predict the end of the civil war on
terms dictated by the Nanking
regime.The optimistic forecast was made
as the result of the recapture by
Nationalists of Tsinan, capital of
Shantung province, and reports in-
cluding Northern rebel armies in
Hunan province were finding Gov-
ernment forces too hot to withstand.
Reports of Tsinan from the
rebels were regarded in Govern-
ment circles as virtually reestablish-
ing Nationalist authority in
Shantung. Military reports from
along the Hsiao-Tungkwan Rail-
road said the rebel Kuomintang
(KMT) army had begun a general
withdrawal from Eastern Honan.While specific reasons accounting
for the retreat were not given,
it is generally thought that
exhaustion of the Nationalists in
Shantung has made the position of
the rebels untenable in Central and
Eastern Honan.Peking Forces Retreat.
Nationalist reports said Peking
forces were retreating westward
from Kaifeng, fortified city which
had been considered the key to
Kuomintang's positions in
Eastern Central Honan.Government authorities said the
rebels were not expected to make
a stand east of Kaifeng. Honan
armies, which were described as
difficult to defend. The fall of
Kaifeng into Nationalist hands
was believed by Government offi-
cials to be imminent.Withdrawals Into Mountains.
Nationalists now profess to be-
lieve that the Kuomintang will
withdraw into the mountains of
Southern Shantung province through
the passes which have for centuries
served as avenues of escape for
rebels fleeing across the Yellow River
during many years.Rebel forces along the Tsinan-
Tsinan railway also were said to
be retreating toward the northern
border of Shantung.
In the capture of Tsinan, Nank-
ing leaders asserted, their forces
swept 20,000 rifles, 120 field guns
and three airplanes. Fresh from
this victory, President Chiang Kai-
shek said he was rushing planes
to Honan for an offensive against
the Kuo Minshun.Nationalists also said they had
entered an advance against Cheng-
chow, important city west of Kai-
feng.Red Disorder Continue.
Communist disorders continued
sporadically in the Yangtze Val-
ley, with Reds pillaging the smaller
places and their apparent disinclina-
tion to attack the larger cities.
Other than Changsha has enabled
the Government to concentrate
small bodies of troops in the major
cities. This in turn has caused
the Communist menace has been
controlled.Nevertheless the Reds are
thought to be able to strike against
any community in Central and
Southern China and will con-
tinue to be in that position until
the Government can withdraw
some of its troops from the north-
ern war front for duty against
the Reds.

R-100 UNDERGOING REPAIRS

British Dirigible Damaged on Be-
ing Taken to Hangou.GARRINGTON, England, Aug.
18.—The British dirigible R-100,
just back from a trip to Canada,
was taken from its mooring mast
early yesterday for the hangar
where it will be overhauled.
During refueling operations Sat-
urday night, the giant airship was
damaged slightly. An attachment
supporting tanks failed to hold,
and one of the tanks slipped
down, penetrating the outer cov-

INDIA'S LIBERTY CAP

Associated Press Photo.
GANDHI, leader of the Indian
movement for independence, which has been barred by
authorities in some parts of British
India. It is worn by Gandhi follow-
ers in the northwest frontier and the
outline of the National Congress
Party flag, white, green and red.

INVADED AFRID TRIBESMEN

ROUTED BY BRITISH PLANES
Danger on Northwest Frontier of
India Relieved, But Martial
Regulations Are Proclaimed.PESHAWAR, India, Aug. 18.—
Chastened by a daily rain of
bombs from British planes, raiding
Afridi tribesmen are reported to
be in full retreat to the hills of the
northwest frontier and the menac-
ing situation here is considered re-
lieved.Despite the decreased tension,
martial law regulations were offi-
cially proclaimed. The High Com-
missioner of India, Lord Dufferin,
of Turin, a border trouble maker,
is reported to be trying to per-
suade the powerful Mohomads
to take the field against the Brit-
ish.All Afridi invaders have disap-
peared from the cave area at the
junction of the Bara Valley and the
Kharu Valley, and the plain
itself is reported to have been
evacuated. Other districts seemed
likewise freed of the tribesmen.
The threatened attack on Kohat
seems to have fizzled.An Afridi invader in the Bara
Valley described the damage from
air raids as impressive, and gave
his pledge that no more hostile
parties would be allowed to pass
through his territory toward India.PLOT TO MAKE EGYPTIAN
KING AN ABSOLUTE MONARCHCoup With Premier Said to Pro-
vide for Restricted
Parliament.By the Associated Press.
LONDON, Aug. 18.—King Fuad
of Egypt and Premier Sidky Pasha
were said in an article contributed
to the Daily Mail yesterday to be
planning a coup d'etat that would
make Fuad an absolute monarch
with a restricted parliament.The King and the Premier, ac-
cording to the writer, have drafted
a new constitution, which the King
will sign tomorrow. The constitu-
tion will be operative immediately
and entail the dissolution of the
present Parliament with its heavy
Wafd majority. The plan is said
to include drastic revision of the
Egyptian electoral law. Two-thirds
of Parliament would be chosen on
a modified Democratic principle,
based on the view that universal
suffrage is not suitable for a coun-
try almost wholly illiterate. The
other third would be chosen by the
government. Under the government
of Premier Sidky Pasha, bitterly
opposed by the Wafd, this third
would really be chosen by the
Fund himself. Incidentally the
number of deputies would be re-
duced from 240 to 100.The writer in the Daily Mail says
the most remarkable feature of
this sensational plan is that the
British Government, though it must
be fully informed of the proposed
changes, is ignoring them on the
grounds that they do not concern
Great Britain.CAROL REPORTED PLANNING
MARRIAGE WITH MME. LUPESCUBreach Between King and Queen
Helen Said to Be Widening;
Coronation Postponed.By the Associated Press.
VIENNA, Aug. 18.—Rumanians
in Vienna said today they had
heard that King Carol, in the
event of a full reconciliation with
his wife, Queen Helen, is planning
a morganatic marriage with Mme.
Magda Lupescu, for whom he
once renounced his throne. Their
information was based on the word
of a foreign diplomat who recently
passed through Vienna from Bu-
charest, who said he shared the
convictions of the King's entourage
that the breach between Carol
and Helen was widening.According to the diplomat, Carol
is temporizing on the matter of
coronation and brought its post-
ponement from Oct. 16 to next
spring, because of misgivings as to
how the nation and especially the
army will take the news that he is
planning the morganatic marriage.Oil Gusher Burning in Rumania.
By the Associated Press.
BUCHAREST, Rumania, Aug. 18.—
An oil gusher at Moreni which
has been burning nearly two years
apparently hit a fresh source of
supply today when its flames be-
came greatly increased in volume.CURRAN PREDICTS
GAIN OF 29 WET
VOTES IN HOUSEHead of Anti-Prohibition
League Bases Forecast on
Primary Results and Can-
didates' Commitments.SEVEN DRY MEMBERS
SWITCH TO REPEAL13 More Representatives
Change From Uncertain-
ty or Modification to
Stand for Abolition.Post-Dispatch Bureau,
WASHINGTON, Aug. 18.—A
gain of at least 29 votes in the
House of Representatives for re-
peal of the eighteenth amend-
ment has been assured by recent pri-
mary results and commitments of
candidates, President Henry H.
Curran of the Association Against
the Prohibition Amendment an-
nounced today.Gains in primaries already total
seven, Curran said. "In addition
seven new votes for repeal have
been pledged by sitting members
announcing that they have changed
their minds, and now favor re-
peal," he disclosed.Thirteen other members have
switched from a position of uncer-
tainty or modification to outright
repeal of the dry amendment,"
Curran said. These members rep-
resent districts in New York, Con-
necticut, Rhode Island, Illinois,
Wisconsin and California, he said.In every one of a total of 29
districts either the sure winner is
wet or both candidates are wet,"
Curran continued.Curran's list of wet gains fol-
lows:Massachusetts.
Second District—William J. Can-
field, wet, Democrat, won the seat
in a special election last February
due to the death of W. Kirk Kay-
nor, a dry Republican, and is ex-
pected to be renominated and
elected.Fourth District—Representative
George R. Stobbs, dry Republican
is retiring and his successor is re-
garded as certain to be a wet.Sixth District—Representative
Clatt Andrew, Republican incumbent,
has definitely committed him-
self as a repealer.New York.
First District—Representative
Robert L. Bacon, Republican in-
cumbent, has declared publicly for
repeal and has introduced in the
House an amendment to the eight-
eenth amendment which would
restore to the states severally their
power to enact their own liquor
laws.Twenty-fifth District—Represen-
tative J. Mayhew, Wainwright,
dry, Republican, has voluntarily
retired and John M. Hoesly, dry
Republican, has been nominated
and Charles D. Millard, candidate
for the Republican nomination, are
pledged to vote for repeal of the
eighteenth amendment.Sixty-first District—Represen-
tative Edmund F. Cooke, of the Bu-
falo district has come out for re-
peal.New Jersey.
Eighth District—Representative
Fred A. Hartley, Republican, dry
sitting member, has come out for
repeal. Paul J. Moore, Democratic
candidate, is also in favor of re-
pealing the eighteenth amendment.Ninth District—Peter Cavichia,
a wet Republican, and Daniel F.
Minahan, a wet Democrat, are the
nominees for the seat occupied by
the dry Franklin W. Fort, who was
defeated by Dwight W. Morrow,
a wet, for the Republican sena-
torial nomination.Pennsylvania.
Eleventh District—Patrick J.
Bolan, a wet, received both the
Republican and Democratic nomi-
nations to succeed Representative
L. A. Watres, a dry, who volun-
tarily retired.Thirteenth District—George F.
Brumm was not a candidate in
1928. He answered in 1930 the
association's repeal questionnaire
"yes."Other States.
Virginia—Second District—Jo-
seph T. Deal, wet, Democrat, won
the nomination in this district,
which is regarded as equivalent to
election, unseating Republican dry.
Tennessee—Tenth District—Ed-
ward H. Crump, wet Democrat, re-
ceived the nomination in the Mem-
phis district, succeeding a dry
Democrat. The nomination is con-
sidered as the equivalent to election.Ohio—Ninth District—Wilbur
White, managing editor of the To-
ledo Times, running on a repeal
platform, defeated Representative
W. W. Chalmers, Republican dry,
for the Republican nomination. The
Democratic nominee is also wet.Illinois—Seventh District—
James G. Morrow, wet Republican,
won in the Republican primary
recount over M. Alfred Michaelson,STEAM-HEATED LAKE
LATEST SWISS BID
FOR TOURIST TRADEMountain Resort Keeps Tem-
perature of Small Body of
Water Comfortable.(Copyright, 1930, by Press and Pub-
lishing Co., New York World
Publishing Co.)

by Beneficiaries.By the Associated Press.
WASHINGTON, Aug. 18.—The
nation's investment for reclamation
of arid and semiarid lands of the
West this year reached an ag-
gregate of \$149,200,000.
Against the amount advanced
by the end of the fiscal year on
June 30 for storage and diversion
of water to make the desert pro-
ductive, a total of \$1,930,000 or 62
per cent had been returned to the
fund from beneficiaries living on
the reclamation projects. As fast
as the money spent in construction
of dams and irrigation works is
repaid in full, it is used again for
the construction of other projects.When Congress passed the original
reclamation act in 1902 it pro-
vided that the fund for reclamation
purposes be made up from sale of
public lands. Later it appropriated
to the fund receipts from sales and
royalties from mining of coal,
phosphates, oil, shale, gas, soli-
dum and from water power li-
censes.During the fiscal year 1930, col-
lections redeposited to the fund
amounted to \$6,550,000. The
Government's contribution through
the various sources totaled \$2,475,-
000.MEMORIAL SERVICE IS HELD
FOR IRISH FREE STATE LEADERSArthur Griffith, Michael Collins
and Kevin O'Higgins
Honored.By the Associated Press.
DUBLIN, Irish Free State, Aug.
18.—Large crowds gathered yester-
day on the lawn of the Free State
parliament buildings to honor the
memory of the dead Free State leaders,
President Arthur Griffith, Michael
Collins and Kevin O'Higgins, at the
annual commemoration ceremony.A cenotaph bearing plaques for
the three leaders was the center of
the proceedings. President William
Cosgrave and the Free State Cab-
inet Ministers sat on the right of it,
and Governor-General James Mac-
Neill and the Diplomatic Corps on
the left.The widow of President Griffith,
and the widow and children of
O'Higgins were present. A wreath
inscribed in Gaelic, "From the
people of Ireland," was laid at the
foot of the cenotaph by President
Cosgrave. Then bugles sounded
and three volleys were fired. "Last
Post" was then blown, and troops
and civic guards marched past.DEATHS IN ITALIAN EARTHQUAKE
SET AT 1475 INSTEAD OF 2142Fascist Order Sheet Denies Truth
Was Hidden to Help Tour-
ist Business.By the Associated Press.

of the Fascist party says the
deaths in the earthquake of July
23 numbered only 1475, in contrast
to the previous official total of
2142.The statement says the reason
for the reduction is that many per-
sons have been found who pre-
viously had not answered roll call
in the stricken towns because they
had fled to the hills or to relatives
living in other villages.It also says a complete list of the
dead with names and places of re-
sidence soon will be issued and de-
nied reports published abroad at
the time of the earthquake that
the deaths ranged from 5000 to

denied the Government had hidden
the truth to promote tourist busi-
ness.Americans Under Charges.
By the Associated Press.
STALINGRAD, Russia, Aug. 18.—
Two American named Lewis and
Brown are charged with attack-
ing an American Negro worker and
will be tried in a Soviet court next
Tuesday. Lewis, a member of the
Communist Youth League, was
charged with attacking a Russian
girl. He is held in jail, while
Brown was allowed to go free un-
til his trial. Both accused are
charged as a new tractor plant.dry, sitting member of leaky trunk
fame.
Nebraska—Second District—Mal-
colm Baldrige, running on a re-
peal platform, defeated Represen-
tative Willis G. Sears, dry Re-
publican sitting member, for the
nomination, which is regarded as
equivalent to election.

OF RADIO TO NEWSPAPERSInventor, at Convention, Condemns
Use of Broadcast for "Blatant"
Advertising.By the Associated Press.
TORONTO, Ont., Aug. 18.—The
debt of radio broadcasting to the
newspaper "is beyond all compu-
tation," Dr. Lee de Forest, pioneer
inventor, told the annual conven-
tion of the Institute of Radio En-
gineers which opened here today.Decrying what he described as
"the use of broadcast, for direct
and blatant advertising," Dr. De-
Forest, delivering his address as
president of the institute, stressed
the part the daily press had played
in popularizing broadcasting. He
said:"Unquestionably it was the as-
tonishing interest on the part of
the press in broadcasting during its
early struggling days, 10 years ago,
which alone enabled it to survive
these crucial years until an awak-
ened popular interest made radio
self-supporting. I sincerely feel
that the debt will be partially re-
paid only when certain forms of
advertising most obviously ill-suited
for radio's medium go to the
printed sheet."The influence of radio on the
press has now become profound.
While its inherent limitations will
never permit it to supplant news-
print, yet radio has largely elimi-
nated extras on price fight results
and has shown a curtailment of in-
terest in baseball news. But radio
has this limitation—it must pre-
sent its programs when the broad-
casters choose and, not when the
listeners desire it."

ORTIZ RUBIO VIEW ON WEALTH

Mexican President Says Rich
Should Give to Needy.By the Associated Press.

ings in order to aid the needy."My greatest desire," Ortiz Rubio
said, "is to do everything possible

of the period of Abraham of the

Kirjath Sefer, the southern limit
of Joshua's campaign against the
tribal kings following his destruc-
tion of Jericho. The place also was
known as Debir, and of Joshua's
foray against it with the Israelite
army the Book of Joshua relates
as follows:"And he took it, and the King
thereof, and all the cities thereof;
and they smote them with the edge
of the sword, and utterly destroyed
all the souls that were therein; he
left none remaining. As he had
done to Hebron, so he did to Debir,
and to the King thereof; as he had
done also to Libnah, and to her
King."

1,040,508 IN FASCIST PARTY

104,756 Women on the Rolls as of
July 31.By the Associated Press.
ROME, Aug. 18.—An order sheet
of the Fascist party says 1,040,508
persons were enrolled in the party
as of July 31. The list includes
104,756 women and 41,680 Fascist
University students. Young Fascist
clubs numbered 21,055 and
Fascist University professors,
1815.The order sheet adds that 150,-
000 children were cared for in the
party's vacation colony this sum-
mer.NO MENACE TO
U. S. IN RUSSIA,
SAYS OBSERVERChicago Professor, After
Tour of Country Declares
Standard of Life There Is
Appallingly Low.NOT ALLURING TO
AMERICAN WORKERMuch Industrial Progress
Has Been Made, He De-
clares, but Necessaries of
Life Are Scarce.By the Associated Press.
BERLIN, Aug. 18.—America, in
the opinion of Dr. Samuel N. Har-
per, professor of Russian history
and institutions at the University
of Chicago has nothing to fear
from Soviet Russia, industrially,
politically or socially.The professor was interviewed
yesterday by the Associated Press
correspondent as he passed
through here on his way back to
the United States after two months
of intensive study of conditions in
Russia.Prof. Harper, who has visited Rus-
sia on and off for 26 years, was ac-
companied on his recent tour,
which included the Ukraine,
Northern Caucasus and the Volga
and Leningrad regions, by Dr. Wal-
ter Lichtenstein, vice president of
the First National Bank of Chi-
cago."Although Soviet Russia is mak-
ing great strides industrially," the
professor said, "it is doubtful if it
will ever reach the high level of
the United States because it lacks
not only the necessary capital, but
the engineering and administrative
skill, and the natural initiative and
enterprise of Americans."No Menace to U. S.
"In a political and social way,
however, Russia holds no menace
for the United States because in
the 13 years the Soviets have been
in power communism has made
virtually no headway in America.The present standard of life in
Russia is so appallingly low that
no American workman, however
humbly placed, would adopt com-
munism."The class struggle in Russia,
Harper believes, is becoming in-
creasingly bitter. He thinks that
Russia now is facing its most criti-
cal period since the rise to power
of the bolsheviks.In Stalin's last speech at the
communist Congress, there was a
significant paragraph in which the
dictator pointed out that Soviet
Russia is now "in the period of
socialism.""Before, Russia was only 'on the
road to socialism,' the concrete ex-
pression of the new stage is the
famous five-year industrialization
plan, now at the end of its second
year, and the political and econ-
omic doctrines underlying the revolu-
tion are being put to a real test."Much Progress Industrially.
Prof. Harper found the Soviets
had made enormous progress in-
dustrially, but thought the five-
year plan imposed terrific burdens
on the people.Living conditions, he said, have
become much worse. Prices have

The Pulitzer Publishing Company
Twenty Second and Olive Streets

THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its editorial principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight for the rights of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news; always be drastically independent; never be afraid to attack wrong, whether by predatory industry, or predatory poverty.

JOSEPH PULITZER.
April 10, 1907.

LETTERS FROM THE PEOPLE

Futility of Rescuing Fish.

DROUTH is working havoc with Missouri's fish partly from drying streams and ponds, but more because of destruction wrought by larger fish and other enemies. The Game and Fish Department is not helping matters by rescuing fish from drying ponds and placing them in overcrowded ponds and streams. In drouths, when ponds shrink and stream pools contract to mere puddles, fish of edible size should be taken and eaten, and the little ones might as well be left to their fate.

Nature provides about 1000 times as many young for every variety of Missouri fish as can possibly reach maturity. Countless billions of fry of every variety were spawned this season. Most of these will serve as food for larger fish, as is ever their fate, but sufficient will survive, hidden under gravel, trash and debris, until the rains revive our streams and fill the ponds and lakes. These little fellows, unnoticeable unless one carefully analyzes the muck of stream or pond, when given plenty of water with the abundance of food that accompanies flush streams, will grow with surprising rapidity.

Now is the time, when waters are low, for friends of good fishing to clear ponds and pools of large fish of every species and enemies of every sort.

Fishermen should be encouraged to clear stream and pond of every sizable fish, and to mop up on turtles, gar, carp, snakes and other denizens that feed upon fish. Let Missouri citizens get all benefits possible out of the situation, remembering always that in spite of every effort made by man, there will yet remain the seed for next year's crop in the countless billions of tiny fry, covering under cover. Every large fish left in our depleted ponds and streams must, if it survives, consume a tremendous toll of small relations.

Every drouth year there is a tremendous hubbalooboo about perishing fish and the end of all angling unless something is done. Fish wardens rush madly about rescuing stranded bass, crappie and sunfish from drying sloughs, transferring them to depleted waters elsewhere, already filled with aquatic life, struggling for existence. About as effective as though the Agricultural Department would rush about the country transferring cattle from one exhausted pasture into another already crowded with livestock and fast diminishing in herbage.

WILLIAM H. JOHNSON,
Hollister, Mo.

Why the Democrats Lose.

THE Democratic party is greater and stronger now than it was in Jefferson's day. Most of our Presidents before the Civil War were Democrats. The Democratic party will never die. Its principles are safe and for the benefit of the country.

The cause of the defeat of the Democratic party in our last three elections is the political machine, a corrupt machine that is going to ruin democracy if it is not smashed. When our elections are the verdict of the people again, then the Jeffersonian principles will be swept back in power. In the long line of Democratic Presidents you find no corruption. The Democrats pride themselves on the clean administration of their great men.

The ideals that the Democratic party stand for are becoming sacred to the people. With the advancement of education, the people are learning more and more about Democratic form of government, and the Republican machine is becoming weaker and weaker. In 1932 will be the greatest victory for the Democrats any party ever won.

GEORGE DENNEY.

Promotions for Negro Teachers.

APPOINTMENTS of assistant superintendents, supervisors, principals and others have been made from those in the St. Louis school system who have given years of service and proved their worth. This plan has been and is still being carried out with reference to promotions within the white group. Of late, however, the 50-year precedent established by the Board of Education has been completely ignored insofar as the Negro group is concerned, despite the fact that it is being assiduously followed with reference to the other group. This shows a special and peculiar departure for which no reason exists.

Now, if this precedent is to be abandoned, it should be broad and applicable to the whole system and enforced as to promotions as they come up for consideration with both groups, with the inevitable result of dividing those promotions between those of merit who have served elsewhere, and those of merit who have given years of efficient service in building up the St. Louis system. A preference has even been given to rank outsiders against those who have served many years, notwithstanding the fact that many of these are recognized as having rendered invaluable and efficient service that has made them worthy of at least consideration for promotion. If the Board of Education persists in ignoring the established precedent and instead gives unmistakable preference to outsiders with no consideration at all of those within the system who have served and progressive teachers within the system to hope for?

ST. LOUIS AND TAX REFORM.

The Post-Dispatch has explained in general terms the changes in the tax system of the State recommended by the Governor's Survey Commission.

The Commission found gross inequalities in the distribution of the tax burdens. Tangible property through the general property tax has been bearing 94 per cent of the tax burden, while intangible property—that old tax dodger—although far exceeding in value the tangible property, bore only 4 per cent. This placed a very heavy burden on real property, farms, homes, merchants and manufacturers, banks, and the realty holdings of corporations. All of these properties were heavily overtaxed, whether income-paying or not, while intangible property, which embraces the greatest amount of wealth in the State, escaped taxation.

To equalize the tax burdens the Commission proposed that local taxes, for roads, schools, the care of the insane and tubercular, be abolished and the burden of taking care of these expenses be shifted to the State. It recommended also that intangible property be relieved of the general property tax. In order to enable the State to carry these burdens and to provide money for the rehabilitation of State institutions, the Commission recommended a moderate increase in the income tax: 1½ per cent on the normal income tax, with surtaxes ranging as high as 5 per cent on incomes above \$100,000. It recommended a tax of 2½ per cent on corporation incomes. Minor changes were recommended, such as an increase in the corporation franchise tax, a change in the taxation of mine production, the shifting of the foreign insurance tax to the State, and others.

The principal object of the Commission was to equalize taxation and reach, through the income tax, income-paying intangible property which now largely escapes taxation. Under the changes recommended by the Commission, property that pays no income or a very small income will be relieved of excessive taxation, and the great bulk of income-paying property now evading taxation will bear its just burden.

The question which interests taxpayers more than any other touching the changes recommended is what effect will it have on their taxes. Of course, the greatest relief from excessive tangible property taxation would be felt by the counties of the State. This relief varies in different counties, depending upon the value of taxable property in the county, and the amount of revenue necessary to bear the expense of schools, roads and the care of eleemosynary institutions. Very poor counties have been heavily overtaxed and yet have not been able to raise sufficient revenue to maintain good public schools or roads, or to take proper care of the insane and tubercular. They have suffered not only from excessive taxation but from lack of educational and other facilities which they ought to enjoy and the lack of which affects the entire State. State appropriations for public school aid and road making and maintenance will be greatly increased for these counties, and the present inequalities in such facilities will be largely abolished.

The relief will not be so great for St. Louis in particular and other cities in the State, but it will be substantial. St. Louis, for example, maintains a high standard of public schools and does not pay local road and bridge taxes. It takes care of its own streets. But it has wealth enormously greater in proportion than the counties and can carry these burdens with far greater ease. Nevertheless, there will be relief from local taxation.

The experts of the Survey Commission have now completed the tabulation showing the effect of its recommendations on St. Louis. This city has an assessed valuation of \$1,216,002,561. The school tax rate for 1929 was 85 cents on the \$100 valuation. The schools of St. Louis received last year in the way of State aid \$1,061,716. Under the Commission's recommendations they will receive in the first year of the program \$1,406,770, an increase of about \$400,000. This amount will be steadily increased during the 10-year period and in the last two years the city schools would receive State aid to the amount of \$2,505,639. The tax reduction resulting would be 2.7 cents on the \$100 valuation during the first period, and this would continually increase until during the last period the tax reduction on tangible property in the city would amount to 12.4 cents on the \$100 valuation. Added to these reductions would be 6½ cents on the \$100 valuation which the city levies to take care of the City Sanitarium, which would be taken over by the State. This reduction of 9.2 cents for the first period would increase to 18.9 cents in the last period. The reductions in the property tax would amount in the final period to \$2,300,000 a year.

The abolition of the property tax on intangible property, which chiefly affects St. Louis, would result in a further reduction of general property taxation within the city. This reduction has not yet been tabulated. The benefits that will result from the adoption of the recommendations will be relief from taxation on homes, merchants, manufacturers, banks and other corporations that have tangible property. This property is taxed on assessed value, regardless of income, and is a heavy burden on many taxpayers. On the other hand, the individual income tax recommended and the corporation income tax will be paid only on incomes above the present limit and exemptions. There is no exemption on corporate incomes. Of course, in the State, farm property and the tangible property of small merchants and of corporations, the taxes on which have been excessive in the past, would be practically unbearable on many taxpayers, particularly the farmers and merchants, during times of depression such as the present. The existing tax system would practically break down. The greater part of the actual wealth of the State, consisting of intangible property, which has hitherto evaded taxation, will have to pay on income. Only income-bearing property will be taxed by the State.

As the Post-Dispatch remarked before, no better method of levying taxes can be found than the income tax within reasonable limits. No one can study the data gathered by the experts of the Survey Commission with regard to property values and the inequalities and facilities of the present tax system without agreeing that the conclusions and recommendations of the Commission constitute a long step toward the rehabilitation of the State finances and the equalization of grossly unjust taxes and of educational and road improvements necessary to the progress of the State. Something must be done in

these directions, and the recommendations of the Commission offer a sound basis for reform legislation.

A GANGSTER'S BOOKS.

Jack Zuta, Chicago operator in liquor, gambling and vice on a big scale, who was riddled with bullets in his Wisconsin retreat a few days ago, kept books. Those books, now in possession of the State's Attorney's office, show enormous receipts; that, of course, was to be expected. They also show disbursements, by way of canceled checks and notes, to Judges, former Judges, police officials, politicians and a subscription to a political organization. There are few persons unsophisticated enough to be surprised at these revelations.

Gangsterism in Chicago thrives under the aegis of official and political protection. It could not prosper in Chicago or any other city without such protection.

Zuta, it seems, was a systematic "business man." His ledgers were as carefully balanced, the dispatches say, as those of any legitimate enterprise. There was method in his madness. He retained the evidence so that if any of the men he had bought become restive he could bring them to heel with the incriminating documents.

How much the dead gangster's books may contribute to smashing the alliance between Chicago's officialdom and underworld remains to be seen. The State's Attorney's office has published the records. Presumably it intends to follow through. It will need assistance. Here is an opportunity for the press of Chicago to come to the aid of its city with a purpose and courage that have not distinguished it. What of Chicago's public opinion? In the last analysis Chicago can be redeemed only by the people of Chicago. As to the reaction of the people of Chicago to the Zuta disclosures, there can be no question if the necessary leadership is furnished in pitiless publicity and official capacity and determination.

The truth, however obvious, cannot be asserted and repeated with too much emphasis. The truth is that the books of Zuta are the books of every other gangster in Chicago and everywhere else. Organized lawlessness flourishes only by permission, connivance and spoils-sharing of corrupt officials.

A USEFUL ENDURANCE ART.

If any of the new-fangled endurance contests gave training that would be of help in bumping up against the stern realities of life, they wouldn't be so bad. But most of them don't. What sterling ability, for instance, does a boy acquire by sitting in a tree for hours? What masterful powers are gained by the winners of a ballroom marathon? And in what rare qualities does a hamburger-eating champion tower above his fellow beings? With marathon running, oldest of the endurance arts, it is a different matter, however. Clarence de Mar, veteran long-distance runner, who has been winning races ever since the retirement of Phidippides, has just proved that his is a useful accomplishment. Having missed the train at Harrison, Mo., when on his way to fill a speaking engagement, Clarence took to the high road and galloped most of the night to cover the 33 miles to Portland, where he caught another train. And this news item calls attention to another monopoly of the marathon runner. He delivers lectures and people listen to them, but who would give 10 pins to hear a champion wheelbarrow pusher orate?

SIR THOMAS AND HIS SHAMROCKS.

Offshore at New London they are putting the Shamrock V in shape after a 26-day sail across the Atlantic through head winds, and watching the work is Sir Thomas Lipton—watching and waiting for the day in mid-September when he will send his fifth challenger over the starting line at Newport after the "blue ribbon of the sea," the America's Cup. His fifth challenger? McKinley was President when the doughty tea merchant sailed his first Shamrock against the Columbia 15 miles east-southeast from Sandy Hook Lightship and return. What finer story is there in sport—or international relationships, for that matter—than the one which begins with his defeat that day and through more than 30 years chronicles his repeated attempts to win the coveted trophy with his white-winged yachts? He was back in 1901 with the Shamrock II and two years later with the Shamrock III. Then came a long absence. Yachtmen counted him out, but 10 years ago he returned to send the Shamrock IV against the Resolute and Charles Francis Adams, now Secretary of the Navy. Once more the yachting world saw him lose, called him a good sport, said he was through.

Now, past 80 years of age, Sir Thomas is here with his newest pride, redoubtable as ever. In his race with the defender, may the best boat win, but as he knows full well, winning isn't all. He has never won the prize, yet he has never missed the goal, which is the sportsman's far greater satisfaction of having played the game. If the Shamrock V doesn't win, who can say he won't try again? His yachts are no greener than the verdure of his youth.

JAMES DUVAL PHELAN: CALIFORNIAN.

That former Senator Phelan's \$30,000 bequest to Mrs. Helen Willis Moody "in appreciation of her winning the tennis championship for California" should affect her amateur standing is unthinkable. In the words of the president of the California Tennis Association, "it was just a gift from one Californian to another, proud of honor done the State." The singular bequest calls attention to his other gifts, which include \$1,000,000 for a foundation for nursing the sick and needy of San Francisco in their homes, \$75,000 to the University of California and \$50,000 to each of two other universities in the State for scholarships and research. His home and \$250,000 for its maintenance as a public park went to the San Francisco Art Association.

When only 21, Phelan organized a young men's political league which was largely responsible for the introduction of the Australian ballot in the State. He served San Francisco three terms as Mayor, his administration furthering the development of municipal self-government. He directed the main relief organization following the earthquake and fire and later filled the offices of Park Commissioner, library trustee and head of the playground system. As United States Senator he was extremely solicitous of the welfare of Americans as affected by the settling of Japanese along the coast. California lost a first citizen in his death.

AJAX DEFIES THE LIGHTNING AGAIN.

A Visit to Lindbergh's Ancestral Home

Stone house in village of Gardlosa, Sweden, was home of flyer's grandfather; he served four terms in Parliament and was close friend of King; changed his name from "Mansson" to "Lindbergh" on migration to U. S. in 1878, after political defeat; Americans now throw to spot, and present owner considers admittance charge.

Harry A. Franck in "A Scandinavian Summer."

DOWN in Southern Skane, in the pleasant little village of Gardlosa, 80 English miles from Malmo and 20 from Ystad, is the ancestral home of Col. Charles A. Lindbergh.

The house, forming with its barn, also of stone, a square about a large cobbled barnyard, and rebuilt in 1871 by Per Bendtson after a fire in 1849, has changed hands many times since Olof Mansson, "Lindbergh's" paternal grandfather, left for America. It is an excellent house, even if rather low and squat, with very large rooms, well furnished and speciously kept. Olof Mansson's former home suddenly became so famous in 1927 that even French newspapers were trying to spell its name. The many Lindbergh families of Sweden who were searching among family traditions and Bibles and memories for those relatives who had emigrated could have wept when it was discovered that Olof Mansson of Gardlosa had changed his name to Olof Lindbergh when he got to Minnesota. That was a common practice among our Scandinavian immigrants whose names were difficult for Americans to pronounce. When the facts were established, there was astonishment as well as sorrow in Skane. For the memory of Olof Mansson, four times a member of the Swedish Parliament between 1847 and 1858, still lived in the minds of the older people down there at the southern tip of Sweden. During most if not all of his four terms Mansson had represented two parishes and had two votes. His peers in the Riksdag made him a member of the Finance Committee and a representative on the board of the Malmo branch of the Bank of Sweden.

He is described as a man of unusual strength and vigor, a very prosperous farmer with a good deal of education, and a close personal friend of Charles XV. As a Riksdag member he was an eloquent speaker, and although noted for his typical Skanian plagues, he could also get excited and even choleric. He was a man of decided opinions, rather advanced for that age, but a Swedish encyclopedia asserts that "his never doubted honesty made even his opponents respect him during the hottest debates." He was especially interested in the building of railways, just then the much discussed means of communication, considered "impossible" and "visionary" by many of Mansson's colleagues and contemporaries. It is said that none other than his friend Charles XV, while still Crown Prince, advised Mansson to cut the Gordian knot of his difficulties by emigrating. For in his relations with others, the man was self-conscious and stubborn, and as the years rolled on his self-confidence grew worse until at last he lost his seat in the Riksdag. A list of memoirs said of him: "Ambition and imperiousness have ruined this man's promising attributes."

After his defeat, it was impossible for a man of Mansson's kind to remain among old neighbors, and in the summer of 1858 he left Sweden and settled as a farmer in Minnesota. With him he brought a son only a few months old, who afterward became a lawyer and a Congressman and a better choice.

More and more Americans are coming to see the former Mansson homestead, and Johan Johansson, the present owner, threatens to have postcards made or to charge admittance for letting others see and photograph his historic house.

The Rainbow Ends in Mr. Fess

From the New York World.

IF there is any man in the Senate of the United States who typifies the complete regularity of the machine politician it is Mr. Fess. In 17 years of service in Congress he has never left the reservation. He has never contributed to the discussion of current problems an idea which postulated the philosophy of McKinley Republicanism in the late 1890s. On questions of property rights and the protection of big business he is the complete stand-patter. On questions of social legislation he is the eloquent disciple of the doctrine of laissez faire. On questions of foreign policy he is the perfect isolationist.

We do not question the fitness of Mr. Fess to serve as the symbol of Republicanism as it has come down to us through Mr. Coolidge and Mr. Harding. We do believe that his selection as party chairman by Mr. Hoover will be a bitter dose to those liberal Republicans who believed in 1925 that Mr. Hoover would give his party new leadership and a new philosophy of government.

It is a far cry from Herbert Hoover, the bold and daring engineer, to Mr. Fess, the party wheel horse. It is a far cry from

Herbert Hoover, the creator, to Mr. Fess, the apostle of let-well-enough-alone. It is a far cry from Herbert Hoover, the expert in world affairs, to Mr. Fess and his Chinese walls. If Mr. Hoover had deliberately set out to show his liberal opposition in 1925 that they were utterly mistaken in their estimate of his type of Republicanism, he could not possibly have made a better choice.

The significance of the President's decision becomes all the more impressive when it is remembered that he had complete freedom in the selection of a party chairman. There were no compelling reasons of party strategy which forced him to decide on Mr. Fess. He was under no personal or political obligation to the man. There were a hundred men whose selection would have typified the spirit of social engineering and the new economic statement which Mr. Hoover seemed to many of his friends to represent in 1925.

Mr. Hoover chose none of these men. He chose Rimeon D. Fess. Once more he has given his most enthusiastic friends good reason to believe that what they are in 1925 was a mirage and not a vision.

WASHINGTON DAY BY DAY

WASHINGTON, Aug. 17.

DOLLY GANN has her difficulties in trying to make sure that her social call as the hostess of the Vice President of the United States is not challenged. And Mr. Roosevelt Longworth has her difficulties in denying rumors that she will take to stump and campaign for her friend Hiram McCormick in her bid for the United States Senate. But Mrs. James J. Davis, wife of the Secretary of Labor, has it both of them when it comes to worries.

There are two seals in the United States Senate on her mind. For Mrs. Davis, as the story goes in Washington, is responsible for two non-attendance records. Mrs. Davis is the wife of the Secretary of Labor, has it both of them when it comes to worries.

HOW TO BAKE CHICKEN

Everybody Likes This Method of Preparing Chicken.

Select a young chicken weighing about four pounds. Have it cleaned and cut in pieces for serving. Rinse in cold water, drain thoroughly and sprinkle each piece lightly with salt, pepper and flour.

Place close together in a greased baking pan, cover and bake in a hot oven for 45 minutes.

At the end of 15 minutes baste the chicken with one-third cup butter mixed with the same amount of hot water. Baste again at the end of a half hour. If dressing is liked make the kind liked best for roast chicken and put it in the pan with the chicken during the last half hour of cooking.

FRUIT MERINGUES AND CUSTARD SAUCE

Light Desserts Are Best Suited to Summer Tastes and Tempers.

Desserts are to many minds the best part of any meal, and this is true of the heavy dieting that has ruined appetites by the score. Planning the end of a meal is no great burden in the summer time because of the variety of fruits that are available, yet there are occasions when the family rebels at "just fruit" and demands something else.

The canny housekeeper has a reserve supply of recipes for such occasions and next night serves perhaps a cherry cobbler, or a raspberry meringue with a chilled custard sauce, or, if the meal is one of those "limited" ones that occur about once a week in all families, she plans hearty steamed fruit dumplings with a hard sauce and watches with a certain sense of satisfaction the looks of delight as another dessert of fruit makes its appearance. It's all in the knowing how.

Hot Weather Desserts.

Desserts of the right kind certainly do round out a meal and as they are a difficult source of energy because of their carbohydrate content, they have, or should have, a place in the daily meal plan.

In warm weather less heating foods are required, therefore the sweets selected should be of the lighter sort and ones that offer least difficulties in the way of digestion.

In fairness to the cook they should also be ones that require the least possible time in preparation. There are still a few martyrs left who delight in spending their days in the kitchen cooking elaborate and lengthy dishes for more or less appreciative families, but modern distractions are rapidly reducing their ranks, and "quick and easy" foods are the order of the day.

One of the simplest and nicest of warm weather desserts is a fruit meringue. This is served cold with a custard sauce made from the yolks of the eggs. The recipe given will serve four people unless they have large appetites, in which case it will be wise to increase the quantity made.

Fruit Meringue.

Measure enough fresh fruit to make three-fourths cupful: raspberries, strawberries, apricots, plums, peaches (these—three should be peeled first) are all good. Stewed fruit may also be used, but it must be well drained first.

Beat the fruit with two or three tablespoons powdered sugar, according to taste. Beat the whites of two eggs until stiff, fold in three tablespoons powdered sugar and then the mashed fruit. Pour into a buttered baking dish about three inches deep and bake in a moderate oven for 15 minutes. Cool and serve with a custard sauce. The meringue will thicken a little as it cools, but not enough to hurt.

For the sauce, beat the egg yolks and add two tablespoons sugar mixed with one-half teaspoon corn starch. Scald three-quarters cup milk and add gradually to the egg yolks. Cook over a slow fire, stirring constantly until thickened. Cool, add one-half teaspoon vanilla and chill before serving.

Frozen Japanese Salad.

Roll half a cupful of rice until tender in one quart of boiling water, drain and spread out to cool and dry. Mix with half a cupful of mayonnaise or cooked dressing, to which has been added a quarter of a cupful of preserved ginger, cut fine, and as much of the syrup. Fold in a cupful of whipped cream and pack in ice and salt for four hours or in the refrigerator five hours. Serve with whipped cream dressing.

FRESH FRUIT PIES

Nothing More in the Way of a Delicious Dessert.

Fruit pies are popular summer, and many variations are possible this time of year, when so many kinds of fruits are in our markets.

Nice pies are made of uncooked fruit. This is the procedure: Bake a pie shell by covering an inverted pie plate with a pie crust and baking in a hot oven—400 degrees—for 15 minutes. Cool and then fill with any fresh fruit desired.

Ripe peaches cut in half, peeled and sliced or left in halves, red apples, pears, apricots cut in half, firm, ripe plums cut in half, etc. Mix one-half cup sugar with one

TO STOP ITCHING QUICK

use cool, instillable Zemo!

Millions depend on cooling Zemo to banish summer skin troubles. For 20 years this safe, invisible antiseptic has relieved the heat and pain of sunburn. It soothes rashes and itchy poisonings, brings relief to itching, peeling toes. See how stubborn pimples and blemishes disappear. Thousands say it has banished dandruff. Healing Zemo liquid is wonderfully soothing after a shave. Any druggist. 25c, 50c, \$1.00.

tablespoon cornstarch and then add three-quarters cup water. Stir constantly over a slow heat until thickened, boiling and transparent. Pour this over the fruit, chill and serve, plain or with whipped cream, as the fruit requires. Individual pies or tarts may be made by baking the pie crust over muffin pans.

USE FOR WAXED PAPER

Will Be Found Convenient for Covering Cut Vegetables.

If only part of a cucumber is used for a meal, wrap the remainder

in a heavy piece of waxed paper and keep in the kitchen.

Cucumber has the faculty of imparting its flavor to milk, butter, cream, etc., unless the cut end is well covered.

The waxed paper wrapping is made of good material and is used for wrapping up apples, pears, plums, pieces of onion, etc.

Dark Skin Disappears Like Magic This New Way

—freckles,
pimples,
blackheads go
almost
overnight

Now by a few, simple, 3-minute treatments you may bleach your skin to the alluring beauty of petal-smooth whiteness. No more tan. No more freckles. No trace of pimples, blemishes or redness to mar your natural beauty. Science has given us Golden Peacock Bleach Cream, the most remarkable beauty aid ever discovered. This magic cream actually whitens skin 4 or 5 shades—and does it almost overnight. More than 30 eminent doctors, scientists and skin specialists helped in Golden Peacock Bleach Cream development. More than 1000 formulae were tried before the right one was found. And now you reap the happy results of this scientific study. Tonight in 3 minutes you apply a thin film of

Golden Peacock. Tomorrow morning you'll see the difference. In two or three days your skin is wonderful—soft as a baby's and so white, so free from pimples and blackheads. And so safe—Golden Peacock's bleaching agent is one of the most potent healing agents known. So why endure a dark skin? Buy a jar of Golden Peacock today. Use it tonight. Be wonderful tomorrow. Obtain it at any toiletry counter.

Your Money Back If It Fails
Results of Golden Peacock Bleach Cream guaranteed. If it fails, take it back and ask for your money. You risk nothing—try it today.

GOLDEN PEACOCK BLEACH CREAM

Two cheerful young ladies were wanted to rent the spare room in a private home. A Post-Dispatch Room For Rent advertisement found them promptly.

A GOOD COLD PLATE DINNER FOR GUESTS

Cold Meals Are Successful
When the Foods Have Been
Carefully Arranged.

A hot night and a cold dinner are a good combination, providing the foods making up the cold dinner have been selected with care for flavor combinations and food value. The following menu is particularly good and is adapted from a dinner served during a recent hot spell, in one of the restaurants that is noted for its delicious food. The meal started with a jellied clam bouillon served in a cup and garnished with a spoonful of whipped cream, slightly salted and colored a pale green. Next came a large plate with cold asparagus, vinaigrette, in the center, an assortment of cold meats—chicken, tongue and cold ham—on one side, half a deviled egg and a lettuce leaf filled with a delicious potato and celery salad on the other. In the menu used today this main dish was changed, as most house-

ADVERTISEMENT KEEP COOL With Kruschen

Keep your blood free from acid and toxins and your liver and bowels in working condition by taking one-half teaspoonful of Kruschen Salts every morning in a glass of hot water and the hot weather will cease to bother you. You can get a bottle that lasts 4 weeks for 55 cents at any drug store in the world and before the bottle is half finished you'll feel younger—more energetic and ambitious. Brighter eyes—clearer skin—spry step—Kruschen (six salts in one).

holds do not keep with an assortment of cold meats on hand. Cold Plate Dinner Menu. Jellied clam bouillon. Asparagus with vinaigrette sauce. Sliced baked ham. Potato and celery salad. Sliced egg garnish. Peach shortcake. Hot coffee. Hot tea. The canned or bottled concentrated clam bouillon will be found a great convenience and delicious in flavor. Use fresh asparagus if possible, though the large stalks of the canned may be used if desired. Clam Bouillon. The bouillon is made by using one can each of the bottled clam juice and water and heating it to the boiling point. Meanwhile soak two teaspoons gelatin in one-fourth cup cold water for five minutes. Stir this into the hot bouillon and stir until dissolved. Remove from the fire, add one teaspoon of lemon juice and pour into cups to cool.

Chili and when firm beat with a fork to break the jelly. Garnish with a teaspoonful of whipped cream that has been seasoned with a dash of salt and a dash of vegetable coloring. Vinaigrette Sauce. Mix one-half cup salad oil with three tablespoons "French", two tablespoons lemon juice, one teaspoon salt, one tablespoon minced parsley, one tablespoon finely diced pimento, one tablespoon India relish and a finely chopped hard-boiled egg. Beat until thickened, using a fork. Arrange large stalks of chilled, freshly cooked or canned asparagus on individual plates and pour the sauce over the tips. Potato Salad. Mix equal parts of cold, diced potatoes and finely cut celery with a little diced onion, salt and pepper to season and enough thin mayonnaise to moisten. Arrange on lettuce leaf and garnish with slices of hard-boiled egg. To arrange the cold plate place about six stalks of the cold asparagus in the center with a generous serving of the sauce poured over the tips. On one side place several thin slices of cold ham; on the other side a lettuce leaf filled with the potato salad and garnished with half a boiled egg, cut in slices. A few olives or sweet pickles may be added. Pass bread and butter or small rolls.

The shortcake is most conveniently made by using rich baking powder biscuits that have been baked in the morning. Split and fill with crushed sweetened fruit and whipped cream. Crisp potato chips may be used instead of the potato salad and any cold meat, or chilled salmon or sardines, instead of the ham.

TUNA FISH IN CUCUMBER JELLY IS INTRIGUING
An Attractive, Hearty Salad for a Midsummer Supper or Luncheon. Flake one can of tuna fish into small pieces. To prepare the jelly, pare two cucumbers, slice and place in a saucepan. Add a tablespoon of mustard seeds, a slice of onion, a teaspoon of celery seed, a slice of minced green pepper, half a teaspoon of powdered sweet herbs and cold water to cover. Season to taste with salt and simmer until the cucumber is very tender. Press through a sieve, add a tablespoon of lemon juice, a quarter of a teaspoon of paprika, and for each cup of liquid use three-quarters of a tablespoon of gelatin softened in three tablespoons of cold water. When the gelatin is dissolved, color with a few drops of green coloring matter, cool and with the assistance of the jelly mold the tuna fish in layers with slices of hard-cooked eggs, bits of feathery parsley and sliced stuffed olives. Chill on the ice and serve unmolded with spicy mayonnaise. Chocolate Pudding. For chocolate pudding for two, try this method. Mix together three tablespoons sugar, one teaspoon cornstarch and one-fourth cup cocoa mixture to it. Stir constantly over a slow fire until thickened, smooth and creamy. Remove from the fire, add one-half teaspoon vanilla and pour into two custard cups or small molds to cool. Serve cold with cream or with a custard sauce. Tapioca cream for two, mix one tablespoon small tapioca with one cup hot milk. Stir this over a slow fire until the mixture thickens slightly. Beat one egg yolk until light and add two tablespoons sugar, then stir in the hot milk and tapioca. Pour back in the pan and cook, stirring constantly, for five minutes. Remove from the fire and beat in the stiffly beaten egg white. Flavor with one-fourth teaspoon lemon extract, or a little grated gingerale and pineapple juice and put in a jar and let stand in the refrigerator for several hours. Arrange in cocktail glasses or on any desirable garnish for fruit, placed on a fancy plate. If served as a cocktail the tall stemmed glasses would be preferred. Peach and Cherry Salad. Pit the cherries and cut in halves. Place the halves of cherries over the open side of the peach. Serve the peach on the lettuce. Serve with cooled dressing mixed with whipped cream.

CARROT CUSTARD PIE.

This Wholesome Vegetable Introduced as a Dessert. Carrot custard pie is rather a new idea and is being featured in some of the restaurants in New York at the present time. It is simple to make as the following recipe will show. The recipe will make one medium sized pie.

Carrot Custard Pie. Use young, medium sized carrots; scrape them and cut in quarters. Cook in boiling, salted water until tender, or for about 25 minutes. Drain, mash and then rub through a coarse strainer. There should be one cupful of the pulp. Add to it one-half teaspoon salt, one teaspoon cinnamon, one-half teaspoon ginger, one-half cup light cream, two well beaten eggs, one cup milk, one egg thin cream or undiluted evaporated milk. Mix thoroughly and pour into a pie plate lined with good pastry. Bake in a hot oven for 15 minutes, then reduce the heat to moderate or 350 degrees, and cook for 30 minutes longer, or until firm. Serve cold.

Luncheon Salad Plate. Rings of green pepper, cubes of alligator pear, thin slices of cucumber, cubes of tomato dressed with

3 KILLED IN PLANE CRASHES

Two Burn to Death in Maryland, One Dies in Texas.

By the Associated Press.
ANNAPOLIS, Md., Aug. 17.—Two men were burned to death yesterday when an airplane in which they were passengers fell at Lipone Corners, between here and Baltimore, and was destroyed by fire. The pilot was brought in a serious condition to the hospital here. The dead men are James

Rupert of Jessup, Md., and Francis Beal of Dorsey Station, Md. The pilot is Marshall Tarbett, 31 years old. The accident occurred at a small commercial airport. The owner of plane told authorities the craft and pilot were unlicensed.
GRAND SALINE, Tex., Aug. 18.—Jewell Phillips, Grand Saline, was killed and two companions were seriously hurt in the crash of their airplane here yesterday. Other occupants of the plane were R. B. Kutenian, the pilot, Dallas, and Polk Dickerson, Grand Saline.

NO MENACE TO U. S. IN RUSSIA, SAYS OBSERVER

Continued From Page One.

reached such fantastic levels as to suggest deliberate inflation. In almost all the elementary needs of life an acute shortage exists. Bread, meat, sugar, butter and other foodstuffs are sharply rationed. Lines of people, he remarked, may everywhere be seen patiently waiting for their allowance of food. They are bluntly told by the Government that for the sake of future generations they must suffer for another two or three years.

Peasants Hoard Silver.

The peasants, he continued, are hoarding silver money to such an extent that the metal has almost ceased to be a medium of payment in Russia. At the same time the city population is converting paper money into tangible articles of merchandise, which later can be sold or exchanged for foodstuffs if the ruble collapses.

He found a dearth of shoes, dress goods, paper, tobacco and other articles. A pair of new shoes in Moscow costs 120 rubles (the gold ruble is worth about 40 cents).

"The coming winter will be a most serious one for the Soviets, and may well try their entire economic edifice. But the crop promise to be one of the best in their history and may save the situation."

Discussing Russia's industrial and economical situation, Prof. Harper said "while the Soviets have built a number of gigantic factories, grain elevators, hydro-electric enterprises, and steel and iron foundries, the construction is not always of the best."

Where these factories are actually producing, the quality in some cases is distinctly poor. But still all these things may be considered a big "plus" to be credited to the account of the revolution.

Youth Enthusiastic.
"On the political side there are also distinct pluses to be noted, but at the same time there are disconcerting minus."

"The younger generation is full of enthusiasm, inspired by the propaganda of the revolution and less sensitive to difficult living conditions."

"On the other hand, machinery

and equipment suffer from the lack of skill and the revolutionary zeal and speed manifested by the young people.

"The five-year plan is not only a program of economic expansion. It is also and first of all a political program and a program of class struggle."

Steamship Movements.

Make the ball and bottle test

... try this interesting experiment yourself

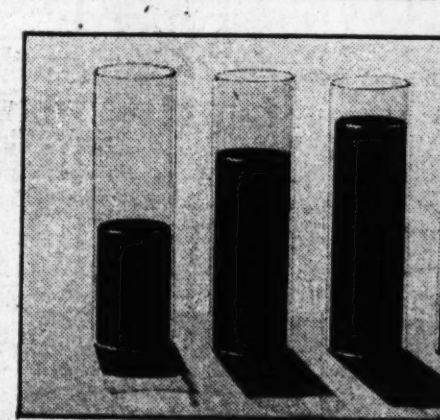

IT WILL TAKE YOU only three seconds to see that New Iso-Vis will not thin out. Ask any Standard Oil Service Station attendant to show you the Ball and Bottle Test.

THE ROOT of a large part of all engine trouble is dilution of the oil in your crankcase. Automotive engineers and government experts both recognize this evil.

The research men of Standard Oil Company (Indiana) undertook the job of finding a solution. The result is this oil (prepared by a special patented process) that will not thin out.

Over and over again, this new oil was tested on all the points vital to the correct lubrication of the modern high compression engine. Here are the facts these tests revealed:

1. New Iso-Vis maintains the same body throughout its stay in the crankcase.
2. New Iso-Vis shows a marked reduction in carbon formation.
3. New Iso-Vis, has a wider lubricating range. It is efficient under extremes of both heat and cold.
4. New Iso-Vis outranks all other motor oils on these combined factors.

New Iso-Vis is a Wholly Distilled oil—made by a new process of refining. It has a sturdy body, obtained without adding undistilled parts of the crude.

This improved motor oil is now on sale at all Standard Oil dealers and service stations.

New ISO-VIS 30 quart Motor Oil

The New Polarine also is produced by our new refining process—giving it a degree of lubricating efficiency which we believe is exceeded only by the New Iso-Vis. The price is 25c a quart.

SALLYCan a Woman Be in Love
With Two Men at the
Same Time?

By SALLY MARTIN

AN faithful wife of 18 years, who still adores her husband, still find room in her heart for the sweetheart whom she loved and lost as a girl?

Toinette's asking. But hundreds of other women—with a secret hunger tugging at their own hearts—will listen with her for the answer.

"Dear Sally Martin:

"Can you help me analyze a situation, and can you suggest a solution for it? Please! If I don't have help soon, I'm going to go absolutely batty.

"To give you a general idea of what it is I am going to tell you, I am a divorced woman, who is kind, loving and generous, and who turns his pay check over to me as regularly as he gets it. He has even taken work at unreasonable hours, to increase our income.

"We have been married 18 years now and have two children. One is 16 and the other 13 years old. And Sally, I do love Ed. That's the funny part of it, because—

"There is Roger, whom I have known and cared for since we were together in grammar school. He is divorced now and the father of three children.

"Sweethearts but quarreled. "You see, we were sweethearts, and it was in a fit of stubbornness that I married Ed, whom I have known since I was 8.

"As to myself, I am considered practical, intellectual and talented. And although I am 35 years old, I do not look it. I keep myself trim, because it is an absolute necessity, associating with people as I do each day.

"Is it possible for a woman to care for two men at the same time? I know that Roger cares for me, and it is all I can do not to chuck everything and go to him. Just last night I wanted to phone him and arrange to meet him. The only thing, really, that held me back was the thought of the children.

"Isn't that I am idle and have time to sit and moon over him. I know I'm just plain batty. I expect you'll think so, too, when you read that I believe in mental telepathy, and I know that I get things he thinks of.

"No, I'm not one of those mooning youngsters, by any means. I should use my brains and act on my own, but it does seem like I'm not going to be able to.

"Fortunately, I have had common sense enough to see my obligations so far. And for the five years he has been divorced, I've held myself in check. But won't this drive me really batty, Miss Martin?

"Please help me. My head's going around in circles. I've thought about it so much. How can I love two men at the same time? I do care for my husband. Please! What shall I do?"

"TOINETTE."

Vacation Hints

For bee stings apply weak ammonia if you have neglected. In using this, ask the farmer's wife for salt and soda and add sufficient water to make a paste and apply this.

If you are camping and forgot to bring a funnel you will find an envelope a good substitute for filling salt and pepper shakers. Cut off a small corner of the envelope and insert the open end in to the shaker.

Aeronautical experts from France last year were valued at \$8,577,528.

HOW IT BEGAN

By RUSS
MURPHY

BALLOONS...

IT IS A SINGULAR FACT THAT THE INVENTION OF BALLOONS WAS BROUGHT ABOUT BY A CRINOLINE SKIRT. A WASHERWOMAN PLACED A PETTICOAT ON A FRAME OVER A STOVE TO DRY. IN ORDER TO CONCENTRATE ALL THE HEAT, SHE CLOSED THE SKIRT AT THE TOP. BY DECREES THE SKIRT DRIED, AND THE RARIFIED AIR CONCENTRATED UNDER IT CAUSED IT TO RISE. ALARMED, THE WASHERWOMAN RAN INTO THE STREET AND CALLED HER NEIGHBORS. ONE SPECTATOR, A PAPER-MAKER FROM ANNORAY NAMED MONTGOLFIER, WENT HOME AND USED THE SAME PRINCIPLE TO DEVELOP A BALLOON. THE RESULT WAS MONTGOLFIER'S BALLOON. THE FIRST TO MAKE A SUCCESSFUL FLIGHT.

PANIC—THE WORD IS DERIVED

FROM THE FRENCH "PANIQUE" SO CALLED BECAUSE OF THE PLAYFUL PRACTICE OF THE MYTHICAL GOD, PAN, OF INFLECTING SUDDEN FEAR OR FRIGHT, WITHOUT CAUSE, UPON PEOPLE.

What is the origin of the exclamation "Hurrah" and why are thirteen persons at a table considered unlucky? Answer tomorrow.

Good Manners Up-to-Date

By Millicent James

IT DOESN'T do at all to be just a person, not in these very modern days. You may have "lovely manners," you may have a well-bred manner and you may be as good-looking as Hebe and as graceful as a young gazelle, but if you haven't personality, if you haven't that elusive something that spells distinction and sets you apart at once from the crowd, you are not a person. You are a thing, a thing that the world can ask any more than that of you. But the trouble is that most of us are afraid to be original. We are not satisfied with what we are, so we are timid about expressing ourselves. Thus we allow ourselves to become copy-cats and amble along willy nilly, being not anything in particular.

But let me assure you that it is distinctly out of date to amble along. If you want to be in the Blue Book line you will take a hint from young Society and realize that it is smart to be up and doing, to be on your own way even if you are not quite certain of your destination, so long as you know that you are headed in the right general direction.

Probably there are fewer dilettantes in the world today than ever there were since the time when the world began, all of which falls right in line with the idea of this era to the effect that if you are not distinctive you are merely an also ran, which is about what I have already said in other words.

Dots and Dashes Teach

Violin Novice Quickly

IN 15 minutes, says Prof. Claude Sammls, head of the department of violin at Texas Christian University at Fort Worth, he can teach almost anyone to play a tune on a violin.

His method discards ordinary notations of music and substitutes a series of dots, dashes and numerical symbols. Each symbol stands for a certain action by the player.

"The object of this quick-teaching method is not to develop artists," he says, "but it makes an interesting pastime, and novices

The Electric Refrigerator

After defrosting the refrigerator the glass tray in which the water has fallen should be washed thoroughly with soap or soda water, dried well and then returned to the box. The unit should be wiped clean and the pans scalded and refilled. Otherwise, in time the ice cubes are apt to have an unpleasant taste to them.

Blushing Bunny

Just a little change in the usual Welsh rabbit. One-half pound rich sharp cheese. One tablespoon butter, a pinch dry mustard, salt, pepper, one-quarter cup sifted stewed tomatoes. Melt the butter in the double boiler, add grated cheese, mustard, salt and pepper. Cook until cheese melts, then add tomatoes and when smooth and creamy pour over slices of toast.

More than a third of all Argentine exports pass through Buenos Aires.

Husband Like Oysters?
Then Here's Good News

HOUSEWIVES whose husbands are oyster lovers may be cheered by the news brought by Dr. R. V. Trout, head of the Chesapeake biological laboratory at Baltimore, Md.

Oysters will be unusually fat and in prime condition at the start of the tonging season in September and are two months ahead of normal development. The heat wave is credited with pushing the bivalves faster than their wont.

Women of 22 Nations
Meeting in Honolulu

WOMEN from 22 nations bordering the Pacific Ocean are attending the second Pan-Pacific women's conference in Honolulu.

Education, health, industry, social service and government are being discussed by leaders in their respective fields.

The largest delegations are from Japan, the United States, Australia, New Zealand and Hawaii, while the Philippines, Java, Samoa, China and the Fiji Islands also are represented.

The Outgrown Dress

If the little girl's dress fits everywhere except in length and you have no more of the material, buy plain material in a blending shade. Let down the hem and apply the new material in a false hem to the bottom of the skirt. Use more of the plain material for the sleeves and make a little do or bow for the neck. It will finish out the little dress in a very pleasing way.

Summer Velvets

AN innovation for summer evening wear is the gown of transparent velvet, made in the most delicate tint of pink, green or blue. This supple fabric adapts itself remarkably to the Grecian influence and stately lines of the formal silhouette. The Sunday night type of frock is sponsored in transparent velvet, cut with long flaring sleeves and trailing hemlines.

Louisiana State University conducts a cotton grading school each summer.

FOLLIES OF FASHION

By Marguerite Barnes

YOUR feet are inclined to swell in hot weather, your shoes and stockings should be very carefully chosen. A light stocking with a dark shoe accentuates this defect and a clocked stocking is also bad, as the line follows the bulge of the ankle.

Ornately decorated shoes, as illustrated at upper left, only serve to call attention to what should be made as inconspicuous as possible. The wide strap on these shoes, and on those below (at left) pinch the instep, emphasizing the swelling even more. At the right is shown a good summer shoe for this type of foot. It is fairly light, strapless and is worn with stockings of the same shade. Pumps look well on feet of this type, and dark shoes and hose are preferable to light ones.

Fried Leftover Cabbage

Chop the leftover boiled cabbage finely. Melt a large lump of butter in a frying pan, add cabbage. Pour over a little vinegar, a pinch of sugar, salt and pepper. Let brown on one side and then turn with a cake turner and let brown lightly

On the other. Serve piping hot.

You will enjoy it much more than when just plain boiled.

Tar stains can be removed from rugs or upholstery by applying a mixture of equal parts of methylated spirits and ammonia.

Talks to
PARENTS

By Alice Judson Peale

Creatures of Habit

MOTHERS often say that children become tired of eating the same food day after day and that frequently varied menus are necessary to maintain their children's appetites.

An experiment concerning this question, conducted in the department of home economics at the University of Chicago, showed this result:

"Four preschool children were served exact, the same breakfast, dinner and supper every day for about three weeks. Moreover, the dessert for both dinner and supper every day was canned peaches. Yet not one comment was made by the children about the sameness of the diet."

"Not only so, but at the close of the study when they were given an entirely different meal with ice cream and cake as a part, they not only expressed no joy—save at the candies on the cake—but having finished the ice cream and cake, they inquired, 'Where are the peaches?'"

This experiment suggests how little bearing the factor of monotony has upon a child's appetite.

Very likely the mother who is wracking her brain to give her child an interesting variety of dishes in the hope of stimulating his appetite is only making matters worse.

In all probability she is throwing into the situation the one element that can be counted on to make a poor eater out of any child. She is showing him that she is much concerned over what he eats. Although it may not be desirable for various reasons to give a child the same menu day after day, it is helpful to know that the question of monotony apparently has little or nothing to do with his appetite.

Chamois Gloves

The rinse water for chamois gloves should be clean but just as soapy as the water in which they were washed in order for them to dry nice and soft. Slip them off your hands, squeeze them in a towel, blow out the fingers and hang in a current of air to dry.

He thought:

"You're most attractive to look at, but a hint of 'B. O.' spoils your charm."

Yet, to be polite,

He said:

"Sorry I can't join you... it's so hot I'm going for a swim."

"Pretty as a picture"... but 'B.O.'
and summer heat kept admirers away

MONDAY—they met. Tuesday—a date. Wednesday—their romance was over. True, it was scorching weather. But that didn't excuse... body odor. And in a girl who looked so exquisitely dainty!

Naturally people hesitate to mention such a personal matter, even under the polite term—"B.O." But finally a friend, an older woman, plucked up courage to tell her and suggest an easy way to avoid offending... What a difference it has made! Now she wins friends and keeps them—has "dates" galore. "B.O." and unpopularity are banished forever.

Perspiration can be kept odorless

Even on sultriest summer days when we perspire most, there's no need for even a trace of "B.O." But here's the thing to remember. Don't simply trust to luck that you won't offend. We never know when we do. We quickly

become accustomed to an ever-present odor and don't notice "B.O." in ourselves. But others do—instantly!

Play safe. Adopt the delightful safeguard used by millions of particular men and women. Wash and bathe with Lifebuoy. Lathers abundantly—even in hardest water. Rich, creamy, antiseptic lather that purifies pores—removes every trace of "B.O."

New complexion beauty

Work Lifebuoy's bland, creamy, deep-cleansing lather well into the skin. It's the finest kind of a "facial". Gently frees pores of clogged impurities—freshens dull skins—promotes radiant healthy beauty. Its pleasant, extra-clean scent—that vanishes as you rinse—tells you Lifebuoy purifies! Adopt Lifebuoy today.

Air Toy Shop

The Little Black Clock was keeping his promise. Peggy and her mother knew that he would keep it. They had told them that he was to use his magic to turn the clock into a toy shop.

They had a plane waiting for them at the end of the garden. It was up in the air! Peggy certainly," said the Little Black Clock. "It's one of the finest airships to be found around here these days, and you're going to be allowed to stay there and with all the toys."

"Oh, oh," said Peggy, "won't that be? Won't that be ever and a nice?"

"The John will find some that he likes too," the Little Black Clock added.

They were off and in no time at all they were landing on one of the great dirigible landing platforms, and the Little Black Clock was telling them it was time to get on.

There's an air hotel on this floating place," the Little Black Clock said, "and of course as many as you want to come up here with them for vacations and holidays. They have a toy shop, too. We're coming to it now."

It was at one side of the air platform but walls were all around so no one had the least fear of falling down to earth.

The shop was simply beyond any description. It was a day upon which the Air People were taking a holiday, and all places of business were closed, but the man who owned the air platform but walls were all around so no one had the least fear of falling down to earth.

The shop was simply beyond any description. It was a day upon which the Air People were taking a holiday, and all places of business were closed, but the man who owned the air platform but walls were all around so no one had the least fear of falling down to earth.

Upon Springs, Fla., ships about 20,000 worth of sponges a year.

Points in the Right Direction
When putting needles away in needle books or pin cushions, be certain that the points are imbedded in the material, thus avoiding some very nasty scratches.

CURBING THE FRECKLE CROP

By Frances Olivier

A FEW weeks of torrid weather, a pale face and what have you? Ask any girl with a white skin or lots of freckles her composition. There's something rather piquant about a light peppering of freckles across the bridge of a nose, but when the freckles assume the size of coin spots decorating the bulb of the nose, the cheeks, the arms and the neck, then it's time to take action. Skins troubled in this way are advised first of all to put aside the usual gentle, pretty-smelling cleansing cream and soap in favor of a good lemon cleansing cream or peroxide cream and a peroxide or buttermilk soap. Better still, use both these bleaching creams and both the soaps, the peroxide one day, the lemon the next and so on. However, this method of bleaching cannot be expected to effect any startling change in the freckle condition. If your freckles are the stubborn sort and if you crave to erase them in time for next week's dance, then obviously you have need of stronger treatment, a bleaching mask, for example. We are printing an excellent one below: **Bleaching Mask for Freckles.** Sweet almonds, 30 parts. Bitter almonds, 15 parts. Distilled water, 300 parts. Mix the three ingredients together and pound to an emulsion. Strain through cheesecloth and add 25 parts tincture of benzoin and 15 parts lemon juice. To make the mask, spread the mixture thinly and evenly over the freckled surface and let it remain on the skin as long as can be comfortably borne. Start with a 5-to-10-minute period. At first the mask may produce some slight irritation of the skin, in which case it is better to discontinue its use for awhile or until the disturbance disappears. Meanwhile, bathe and "wash" the face with fresh sweet milk instead of soap, water, creams or other lotions. Freckles which do not come en masse—you know the sort, that drop on here, one there, forming ugly little islands on the face! These are best treated by dipping a camel's hair brush into the mask

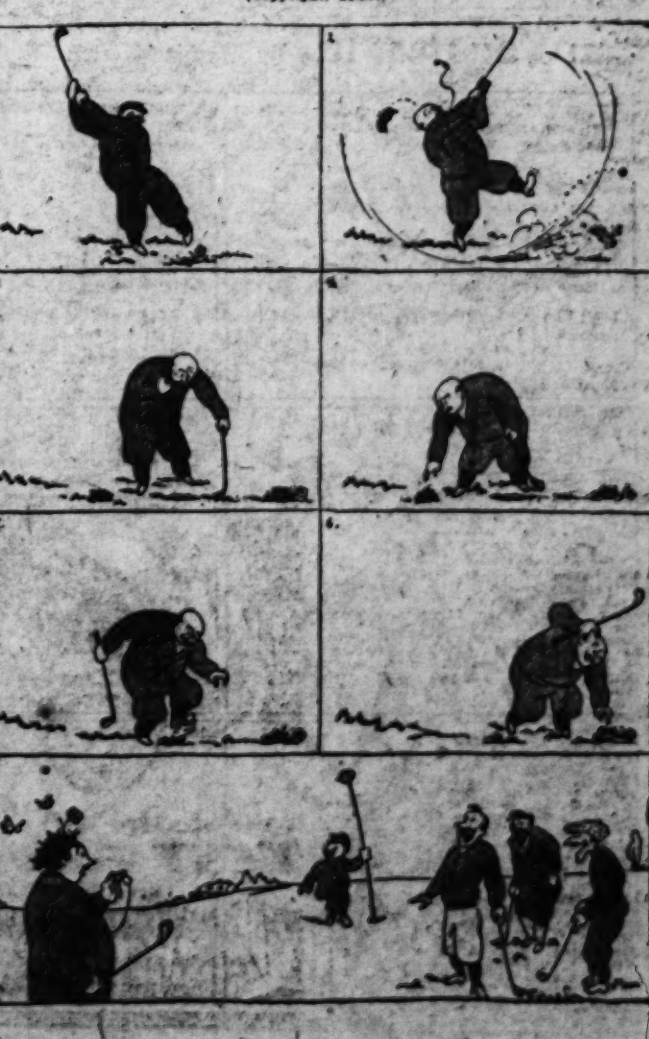

and "painting" each freckle separately. Beware, though, of leaving the bleach on too long. As we suggested before, five to 10 minute periods will do quite well enough at the start. Later, when your skin has accustomed itself to the action of the bleach, you can let it remain on the skin for longer periods. Need we remind you that when the freckles are erased you must do everything possible to keep them from recurring? There are excellent sunproofing creams, lotions and unguents in the beauty market, you know. And as we suggested the other day, a good coating of foundation cream, plus powder, is an excellent way to shield the skin from the sun. (Copyright, 1930.)
